MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk before 12 o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Thursday following.

Meetings of the Committee are held on the Thursday next preceding the third Tuesday in each month, at 2 o'clock P. M.

JOSEPH A. COCHRAN, City Clerk.

CITY GOVERNMENT,

CONCORD, N. H.

Interest a	ccrued, not y	et due, .		. 90.00

Net liability on account of school-districts, . \$122,910.00

These bonds were issued under ordinances of the city council, as authorized to do by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act authorizing the city of Concord to borrow money in aid of its school-districts." These school-districts have, by their votes and by their agents duly authorized, bound themselves to the city to seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principal upon their indebtedness, and all incidental expenses, as the same shall become due.

PENACOOK SEWER PRECINCT.

Sev	ver Bonds, pay	able as fo	llows:	
When due.	Rate of interest.	Interest p	ayable.	Amount.
August 1, 1898,	4,	semi-an	nually,	\$5,000
August 1, 1903,	4,	semi-an	nually,	5,000

Penacook Se	ewer Precinct,	•	•	\$21,000
Interest accrue	ed but not yet du	е,		300
				\$21,300
Amount of the si	U		\$1,000	
cook sewer, Ja			20,300	
		-		\$21,300

Net indebtedness	s on	accour	it of	Per	nacook	sev	ver,	
Jan. 1, 1890,								\$20,800
Decrease for the	year,							500

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows:

\$500 annually for ten years from August 1, 1888,

- \$1,000 annually for five years from August 1, 1898,
- \$1,200 annually for ten years from August 2, 1903,
- \$1,000 annually for five years from May 1, 1908,

by taxation upon the taxable property in Penacook Sewer Precinct, said sums, as soon as received, to be placed at interest by the finance committee.

RECAPITULATION.

Net regular municipal debt above	asse	ets,		\$37,707.10
Net precinct debt above assets,				473,625.00
Net school-district city debt,				122,910.00
Net Penacook sewer city debt,				20,300.00
Aggregate indebtedness over ava	ilabl	e ass	ets,	
Jan. 1, 1891,				\$654,392.10
Aggregate indebtedness of same,	Jan.	1,18	90,	
over assets,				$618,\!156.51$
Increase for the year,*				\$ 36,385.59

^{*} It will be noticed that the increase of the net indebtedness of the city arises from the building of the Police Station, widening Pleasant street, building the South End sewer, purchase of new fire apparatus, and extra appropriations for roads and bridges.

REPORT OF COMMITTEE ON FINANCE.

The books of the city treasurer have been examined, and compared with those of the city clerk, by the Committee on Finance, and all the accounts are found to be correctly kept, with proper vouchers on file for all payments. All the bills allowed by the Committee on Accounts and Claims have been paid, and no claims against the city which the city would be liable to pay are known to remain outstanding, with the exception of those mentioned under the heading of unfunded debts; and the balance in the hands of the treasurer is forty-one thousand sixteen dollars and thirty cents (\$41,016.30).

STILLMAN HUMPHREY, JOHN C. ORDWAY, GEORGE F. UNDERHILL, GEORGE H. MILTON, PATRICK H. COLEMAN,

Committee on Finance.

CITY EXPENSES.

FROM JANUARY 1 TO DECEMBER 31, 1890.

Being an itemized account, made up from the books of the City Clerk, of the payments made by the City Treasurer on account of

RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1890, and salaries and committee service have been paid for the full municipal year. The expenses of the year, which are included in the general running expense, may be seen in the aggregate at the end of the detailed account here given. This is intended to include interest, but not the payment of maturing bonds.

				\$11,499.96

EXTENSIONS AND IMPROVEMENTS.

Main and distribution pipes have been laid and hydrants set, during the year, as follows:

In Blanchard street,

from Rumford to White street, 475 feet 6-inch pipe and 1 hydrant.

In Lyndon street,

south from Tremont street, 30 feet 6-inch pipe and 1 hydrant.

In Highland street,

east from Rumford street, 60 feet 6-inch pipe and 1 hydrant.

In Prospect street,

north from Foster street, 800 feet 6-inch pipe and 1 hydrant.

In Curtis street,

west from Prospect street, 225 feet 6-inch pipe and 1 hydrant.

In Foster street,

from No. State to Prospect street, 180 feet 6-inch pipe.

In Broadway,

south from West street, 276 feet 6-inch pipe.

In Waverly street,

west from No. State street, 200 feet 4-inch pipe.

In Walker street.

east from Rumford street, 204 feet 4-inch pipe.

In Highland street, 400 feet 4-inch pipe.

In Church street,

east from No. State street, 280 feet 4-inch pipe.

In Charles street,

60 feet 4-inch pipe.

In Lyndon street,

70 feet 4-inch pipe.

In Cambridge street,

from No. Spring to Academy street, 160 feet 4-inch pipe.

In Academy street,

north from Cambridge street, 100 feet 4-inch pipe.

In Harrods street.

south from Tremont street, 275 feet 4-inch pipe.

In Pitman street,

In Summer street.

from Pitman to Winter street, 95 feet 4-inch pipe.

In Winter street,

from No. State to Summer street, 225 feet 4-inch pipe.

from No. Main to Summer street, 480 feet 4-inch pipe.

In Maple street,

west from No. State street, 160 feet 4-inch pipe.

In Bowery Avenue,

west from Green street, 245 feet 4-inch pipe.

In Fremont street,

from Warren to Pleasant street, 590 feet 4-inch pipe.

In Oak street, west from So. Spring street, 180 feet 4-inch pipe.

In Mill street.

from Allison to Downing street, 1,320 feet 4-inch pipe and 1 hydrant.

In Dakin street,

from Allison to West street, 855 feet 4-inch pipe and 1 hydrant.

In Ferry street,

east from No. Main street, 425 feet 4-inch cement lined pipe has been replaced with 4-inch iron pipe.

On hydrant branches, 52 feet 6-inch pipe.

SUMMARY OF THE FOREGOING.

SERVICE PIPES.

There have been laid, during the year, and connected with the main pipe, 132 service pipes, consisting of,—

$124^{-\frac{3}{4}}$ -inch,	3,087	feet.
4 2-inch,	93	
2 4-inch,	60	
2 6-inch,	86	
132	3,326	feet.

Whole number service pipes, 2,441. Number discontinued, 14; number in use at the present time, 2,427.

Whole number feet, 56,581, equal to $10^{-7.1}_{10.0}$ miles.

There have been repaired, during the year, 17 leaks.

The following table shows the height of water at the lake on the first day of each month:

January,			180.50	July,		183.70
February	,		180.40	August, .		182.60
March, .			181.30	September,		181.15
April,			182.70	October,		180.60
May,			183.70	November,		181.30
June, .			184	December.		181

The lowest point reached was January 20, being 180.30; the highest was June 9, 184.10;—mean height, 181.90, being one foot higher than during the year 1889.

Respectfully submitted:

V. C. HASTINGS, Supt.

REPORT OF WATER COMMISSIONERS.

To the City Council:

The Board of Water Commissioners respectfully present their report for the year ending December 31, 1890:

The foregoing statistics are taken from the report of the superintendent to the board, and show the income and expenses of the water works during the year, and the improvements and extensions that have been made. It will be noted that the works have been self-sustaining, and that there is a balance of earnings amounting to \$6,233,45. In other words, the income-has been sufficient to pay the expenses of maintenance, the cost of new distribution and service pipes laid during the year, amounting to \$7,701.89, and the interest upon the water-works debt, and to leave the balance above named. This income accrues from water rates, that are lower than the rates in most places of the same size as ours. The income of this year is \$1,895.88 larger than the previous year, showing a good growth in the compact parts of the town.

In our last report attention was called to the low pressure in the more elevated parts of the city, and to the necessity of improving the works so as to remedy this defect. The board have had the matter under consideration during the year. We employed Mr. Percy M. Blake of Hyde Park. Mass., a civil engineer skilled in the construction of water-works, to advise about the matter. After giving the subject careful attention and consideration, he made a report to the board, advising the pumping of water from Long pond to a reservoir located upon some convenient elevation, like that lying between Franklin and Penacook Streets, and the distribution of the water by gravity from such reservoir. This report was published in pamphlet form and distributed to the citizens in May last, and it is unnecessary to refer to it more at length here.

Soon after this investigation was made our attention was called to Walker's pond in Webster. It was claimed in behalf of this pond that water can be supplied to our citizens from it by gravity, without a very much larger outlay of expense than would be required to establish a pumping plant with its appurtenances for transferring water from Long pond to a reservoir located upon an elevated site, and to secure the additional water rights required in connection with it. The board now have this matter under investigation, and are not prepared at this time to recommend a plan for overcoming the weakness of our present system.

It is evident that something must be done at an early date, and that it will require a considerable expenditure of money. As soon as a conclusion is reached, the plan will be submitted, and the city councils will be asked to raise and appropriate the necessary funds to carry it into effect.

We expect, when the outstanding six per cent. water bonds mature in 1892, 1894, and 1895, that they can be refunded at the rate of four per cent. or less. If so, the debt can be increased nearly \$200,000 without increasing the interest charge. The present prospects of the city certainly warrant the expectation that the income of the works will increase from year to year as it has in the past. In short, we believe that the required additions can be made to the works without materially increasing the burdens of the citizens.

The collection of subscriptions for the street sprinkling has been attended to as heretofore by Mr. Howard M. Cook, and the results are as satisfactory as could be expected under the present system.

The full account of individual subscriptions is presented for the information of the public.

All of which is respectfully submitted as supplementary to the report, by

DANIEL K. ABBOTT,

 $Commissioner\ of\ Highways.$

REPORT OF THE COMMITTEE ON SEWERS AND DRAINS.

To the City Council:

The Committee on Sewers and Drains would respectfully submit their report for the year ending December 31, 1890:

Regular appropriation other amounts to this				ınd	\$5,078	3.00	
Amount expended,					3,929	9.65	
Balance unexpended,							\$1,148.35
Special appropriation	for '	Son	th En				
sewers,					312,000		
Premiums on bonds so	ıa, a	na m	terest,	•		0.00	\$12,390.00
Amount expended,		•		•	•		$3,\!543.24$
Balance unexpended,							\$8,846.76

It will be seen, by referring to an annexed table, that we have been able to build about 4,582 feet of sewers on the general account, supplying the larger portion of those petitioned for, and have also repaired some of the existing sewers, as needed, yet leaving quite an unexpended balance of the appropriations to be transferred to the next year's account. Agreeably to your instructions, and in accordance with the location and plans you adopted, we commenced the construction of the South End sewer. 38 inches in diameter, to extend from the river, across the intervale, to Allison street, about 4,000 feet. On account of heavy rains and other causes, we were not able to do as much as was expected, but enough was done to insure the

early completion of it next summer, which we believe will afford the relief so much desired for the health and comfort of the people in that section of the city.

We give below the location of the work done in this department, and an approximate cost of each:

Walker street, 725 feet 10-inch pipe, and Rumford	d
street, 175 feet 8-inch pipe,	. \$576.37
Highland street, 550 feet 8-inch pipe, and Bradle	y
street, 198 feet 8-inch pipe,	. 407.20
Summer street and Winter street, 268 feet 8-inch pipe	e, 186.40
Pleasant street, 250 feet 18-inch pipe,	. 711.40
Ferry street, 880 feet 10-inch pipe,	. 805.60
Water street, 286 feet 8-inch pipe,	. 152.20
Franklin and High streets, 228 feet 10-inch pipe,	. 259.28
School street, 172 feet 8-inch pipe,	. 126.00
Tahanto street, 280 feet 8-inch pipe, 60 feet 6-inc	:h
pipe,	. 212.50
Pleasant street extension, 180 feet 8-inch pipe,	. 85.80
Waverly street, 290 feet 8-inch pipe	. 124.50
Mills street, 40 feet 10-inch pipe,	. 44.00
South End brick sewer, about 730 feet 38-inch dian eter, has been completed.	1-

We would renew the suggestions made in our report of last year, in regard to the extension of the large brick sewer from the foot of Depot street, up Warren, to Spring street, which should have early attention; also to the recommendations made by your committee recently to the Board of Aldermen, in regard to the needed sewers at the North End of the precinct.

While substantial progress has been made in a better regard to the rules and regulations pertaining to the entering and care of our sewers, and while we notice with pleasure the growing appreciation of them by our citizens, yet there is, we believe, a just cause for the complaints made against some who have been licensed as drain-layers, for the very careless manner in which they have done their work, both in entering the sewers and covering the ditches. We would suggest that our system of sewers

has cost the city too much to be carelessly treated. Why should they not be as jealously guarded as our system of Water-Works?

STILLMAN HUMPHREY, WILLIAM E. HOOD, FRANK P. QUIMBY, W. W. ALLEN, Committee on Sewers and Drains.

REPORT OF PENACOOK SEWER PRECINCT.

Nothing has been done the past year by way of extending the sewers; but the main outlet at the Merrimack river has been completed in a thorough and substantial manner, and in such a way as entirely to obviate the difficulty which has heretofore existed during the hot weather, doing away entirely with the disagreeable odor that was noticeable in that vicinity. One other improvement should be made, at the outlet of the Elm street sewer where it empties into the Contoocook river, carrying the sewage out into deep and running water. Our sewerage system is in excellent shape, and as the volume of water is being constantly increased by water-closets, etc., it will be more efficient, and the danger of their becoming clogged will be materially lessened.

The following is a financial statement of receipts and expenditures for the year:

EDUCATIONAL DEPARTMENT.

The school reports are not prepared until the close of the school year in March, and are consequently omitted from this volume.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council:

The Trustees of the Concord Public Library view with gratification the good work accomplished by the library. Each year shows a well marked gain over its predecessor, both in the number and the class of books taken, and also in the amount of reading and consultation done within the building. The reference room is fast increasing, and must soon be recognized as one of the most important educational factors in the city.

The trustees commend the report of the librarian to your consideration, and trust that its suggestions may meet with your official approval.

Very respectfully,

ABIAL ROLFE,	Ward	1.
JOSEPH T. CLOUGH,	6.6	2 .
PAUL R. HOLDEN,		3.
WILLIAM L. FOSTER,	6.6	4.
CHARLES R. CORNING,	4.6	5.
JAMES S. NORRIS,		6.
WILLIAM W. FLINT,	"	7.

LIBRARIAN'S REPORT.

To the Board of Trustees:

The library has been open for the delivery of books every week day of the past year, and the daily and weekly issue of books has been as follows:

Included in the number of books issued in 1889, 9,601 were sent to Penacook and Boscawen, and in 1890, 9,338, as follows:

	1889.	1890.		1889.	1890.
In January,	1011	881	In July,	689	685
February,	973	701	August,	551	750
March,	1015	949	September,	595	796
April,	917	886	October,	718	789
May,	832	799	November,	769	612
June,	696	697	December,	835	793

BOOKS ADDED.

Fourteen hundred volumes have been purchased, and three hundred volumes have been received as donations to the library, from various sources, during the past year.

THE READING-ROOM

has been open every week-day during library hours, and on every Sunday from one to five o'clock r. m. Latterly, the Sunday readers have increased in numbers, while the number on other days has not diminished.

THE REFERENCE-ROOM

has been open every week-day since the first day of June last from two to six o'clock p. m., for the use of the teachers and scholars in the city schools, and others who wished to consult the books. This department is now well patronized, and the thousand and one questions asked by its patrons have been answered, so far as practicable, by the assistant librarian in charge.

The last general catalogue of the library was issued in 1884, and contained a list of the books up to the time of its publication. Since that time seven supplements to the catalogue have been issued, and there is matter on hand for another, making eight or more separate catalogues of books now in the library, requiring possibly a search through every one to find any particular book. As a remedy for this, I would recommend that the supplements be condensed into one volume, and that the original catalogue be suffered to remain unchanged, thus reduc-

ing the number of catalogues to two, which may be done with but little expense besides the printing.

The rooms in the basement story of the library building should, as soon as possible, be put in order for the reception and storage of the government documents now kept in the upper book-room, as the shelves now occupied by them will be wanted for books used in the circulating library.

The opening of the reference-library for the accommodation of the scholars in the public schools and others has added to the task of the librarian and his assistants, and the employment of an assistant to take charge of this part of the work seems desirable. This subject is recommended to your consideration.

Respectfully submitted:

D. F. SECOMB,

January 1, 1891.

Librarian.

TREASURER'S REPORT.

To the City Council:

The balance in the hands of the Treasurer, January 1, 1890, was \$358.20, to which has been added the city appropriation of \$5,000, and receipts from the library amounting to \$71.72, making a total of \$5,429.92, as available funds for the purposes of the library.

Of this sum \$5,000 has been expended as per itemized account in the expenses of the city, and \$367.70 from the funds in the hands of the Treasurer, in addition to the appropriations, leaving a balance of \$62.22 on hand.

HEALTH DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To the City Council:

Your board would respectfully bring to your notice the fourth annual report of this department of the public work.

It is a pleasure to be able to give the assurance that good progress has been made during the year, and that our citizens are annually becoming more and more interested in matters concerning this department.

REPORT OF HEALTH OFFICER.

The report of our health officer serves to confirm this assertion, and we would ask your attention to his report of work performed, as well as to the suggestions therein contained, all of which have our approval.

In this connection we would add, that the time of the health officer has been fully occupied during the year in attending to the duties of the office, and his report shows very conclusively that our people are annually requiring more information regarding conditions possibly affecting the public health, as well as more attention on the part of our city government to matters pertaining to the cleanliness of streets, alleys, vacant lots, and nuisances wherever they may be found.

POLICE STATION.

Our people have good reason to be proud of our new city building which has so long been needed for the convenience of the police and other departments of our city administration, and any one who was conversant with the conditions that existed in and about the old lobby will affirm that humanity dictated a radical change in the quarters assigned to those who are so unfortunate as to be classed with those having criminal tendencies.

Another class that our police force are obliged to deal with are not guilty of misdemeanor, but are homeless, friendless, and moneyless. In our new building such people can be provided with a comfortable place, and yet not be compelled to associate with those having vicious or criminal reputations.

We believe public opinion fully sustains the action of our city council in the erection of this building, and that it will prove a good investment in providing suitable offices for the several departments of the city administration at comparatively small expense. At the same time it is an object-lesson in humanity to those whose moral obliquities render it necessary to temporarily detain them for their own and the public good.

CITY AMBULANCE.

The purchase of an ambulance was only carrying out the spirit of humanity toward those who are so unfortunate as to be the victims of injuries or sudden illness. It was a necessity of which our laboring population very naturally took cognizance, long before those less liable to accidents were made aware of how often such a vehicle would be brought into use in a city like Concord.

The fact that it was in use at five different times during the first month after it was delivered to the city is ample proof that it had become a necessity, and that the money expended in its purchase was wisely used in providing a means of comfortable transit for the unfortunate.

MARGARET PILLSBURY HOSPITAL.

It may be early to congratulate our citizens upon the good fortune that has given them the assurance of a first-class general hospital of a capacity that will meet the wants of our city in that direction for many years. The munificence of a former member of our city government — and for a period its chief executive officer — will place Concord in the front rank in the charitable work of caring for the sick and afflicted, and in pro-

viding for them the comforts of a home, and in such amelioration of suffering as cannot be had for a large class of individuals outside the wards of a well conducted hospital; and there is good reason to believe that Mr. Pillsbury became aware of the good such an institution might confer upon our city, while he was acting as a member of our city government,—therefore after a successful business career his mind naturally reverted to the conditions that formerly existed.

Now, while he has contributed so liberally for carrying out a great principle of humanity, it is to be hoped our citizens will in some manner indicate their desire to have our municipal government, annually or otherwise, appropriate substantial financial aid to its support. Thus far the annual support has been on a liberal basis, and we have never heard of a citizen's raising an objection. Let the good work go on, and a reward is certain to follow.

GENERAL PROSPEROUS CONDITION OF THE CITY, AND ITS OBLIGA-TIONS.

The public have good reason to be pleased, and our citizens to be congratulated, on the continued prosperity and substantial growth of our city. The increase in business and population has been marked since our last report, and in this connection we desire to call your attention to the fact, that with an increase of population and of business interests, the duties and obligations of the city toward her people are made more conspicuously imperative. This fact must be apparent to all,—otherwise our new fellow-citizens could not secure and enjoy with others equal and inalienable rights to good health and happiness, which require a clean soil, pure air, and pure water.

The municipal obligations of a town or a city are increased in the same ratio that a population increases: new streets are laid out, buildings constructed, and business interests developed or made possible.

Business interests and the abodes of the workmen demand your protecting influence to the end that adequate means shall be provided to secure an abundant water-supply, as well as good and sufficient exit for the removal of sewage and garbage. Already the committee on sewers and drains are devising ways and means to bring about a considerable extension of our sewer system, and it is understood that our water commissioners are investigating plans for a better water service, as well as one which will probably be sufficient for our present and prospective use. To do this, some large natural reservoir of good wholesome water should be connected with our present system, and on such higher elevation that it can be delivered by gravity and afford us a high water service. This would be far preferable to a pumping system, which is expensive and requires constant supervision. It is generally understood that such a reservoir has been found in a neighboring town, and so situated as to give us such increased service as we could wish, and at the same time give a much needed service to a portion of the town of Boseawen. No objection can be raised to this proposition — provided it is certain there is sufficient water — as it would provide another source of income, and thereby help pay a return on the investment.

INCREASED WATER-SUPPLY.

The distance, as compared with what has been considered necessary in other cities, is a small item, and chemical analysis shows the water to be but slightly inferior to our present supply, and much superior to that of many large cities. The fact that the water-shed of Penacook lake has been cleared, leaving only the refuse of very little forest and other vegetation to find its way into the water, serves to give us a fluid containing almost the minimum of organic matter; and should the same conditions be imposed and carried out over the watershed of Walker pond in Boscawen, the same result would naturally follow, and the condition of the water would be much improved. Its present condition cannot be considered as being incompatible with good health, and the secretary of our state board of health says,-". The proportion of solids in Walker pond is lower than in nine tenths of the waters used for drinking purposes in other cities, and in my judgment it can be used without any fear;" and the doctor's opinion is backed by other eminent authority. In the consummation of any plan or system that will give us an increased water-supply and sewerage, a large outlay of money will be necessary to effect such changes and extensions as will be required; therefore, before any plan shall have been adopted, the same patient study and investigation should be given the subject, that would be considered desirable should a syndicate be preparing to invest the same amount of capital in manufacturing or other business pursuits.

SEWAGE DISPOSAL.

The problem of what shall be done with the waste and effete matter of villages and cities is attracting the attention of the officials of all large places, and some of our neighbors on the Merrimack, between Concord and tide-water, are seriously alarmed at the conditions that obtain at present. Some of them take their water-supply from the river, and, as an epidemic of typhoid fever has been prevailing in those places, investigations have been made by health authorities, and the disagreeable fact was revealed that the water-supply might have been the means of disseminating the contagious germs of the disease.

The State Board of Health of Massachusetts extended their inquiries into the probable origin of this epidemic as far into New Hampshire as this city, but we believe it was conceded that the original influence was not to be found in this state. However, the investigations that were made to locate the primary influence that developed the epidemic only served to show that such conditions may arise at any time, and therefore we should not be surprised should a demand be made to prevent the pollution of the Merrimack.

In view of the possibility of such an attempt being made to prevent the pollution of naturally clear and healthful water, it may be an act of wisdom for Concord and other cities in New Hampshire, which are now turning their sewage and refuse matters into the river, to be making investigations into the systems that contemplate the destruction of waste and effete material, and its economical disposal without being a nuisance to those in its immediate vicinity.

For several years a small appropriation has been made looking to this end, but as no commission was appointed to make the investigation, nothing has been done, and the appropriation has not been expended.

WHAT SHALL WE DO WITH OUR SEWAGE?

A problem involving complex and conflicting conditions, and of great magnitude, confronts several cities of New Hampshire, and cannot be solved without persistent and patient investigation; for, with taxation already reaching almost the maximum limit of endurance, some method must be found that will be economical as well as effective. Theoretically, people will give all they have for life and health, but practically it is not easy to secure unanimity of action on questions involving public opinion and the expenditure of public money for health purposes: it has been found to be more agreeable to the taxpayer to procrastinate, patching up a little here and there and taking a good deal of risk, instead of making radical changes that will secure perfect protection. Thus far, almost the only principle that has been involved, in trying to solve this problem, has been how to get it out of the way in the shortest possible time-whether by fire or water.

Little or no attempt has been made to utilize these matters in such a manner as to render them useful to those engaged in agricultural pursuits, yet it would seem as if it must ultimately be made clear that such is the natural solution of what to do with all waste matter, and especially so since it is a principle, if not an injunction, of nature that nothing shall be lost, but that in the cycle of change continually going on between the animal and vegetable kingdoms everything shall in some way be utilized.

While it is quite true that it is not the province of a city to invest in a plant such as would be necessary to reduce garbage and sewage to the proper conditions required that they may become useful and profitable fertilizers, yet it is a fact that all new industries expect more or less of the fostering care that can only be afforded by municipal authority. With a large and flourishing tannery in our midst, having an immense amount of valuable waste products developed during the process of manfacture, and with the large quantity of street refuse that is removed during the year by the street commissioner—much of which is of vegetable origin—we have hundreds of loads of material that might be used in the development of a plant

which might possibly become self-supporting as soon as experimental research had been eliminated from the expense. These are matters of importance, and it becomes the duty of every city to make the most of its opportunities; but if on investigation it is not considered feasible to use these waste products in this way, we have now a considerable area of land to be devoted to public parks, and a great deal from our streets might be utilized in filling and grading in these public places, as well as for a top dressing on other portions already grassed over.

PUBLIC PARKS.

Good friends of the city have favored us with ample area to make beautiful public grounds, and we shall be remiss in our duties unless we shall exercise reasonable diligence in developing public parks that will not only be ornamental but healthful to all who can make their use available for themselves and their children. In this way such grounds become a factor in the development of a city, and the increase of valuation in their immediate vicinity serves to furnish a portion of the taxable property necessary to secure the amount required to protect and keep such public places in good condition.

CENTRAL FIRE STATION.

Last year your board called the attention of the city council to the necessity of a thorough reform in hygienic conditions existing in and about the central fire station, and remarked that "The rules and regulations you have approved to govern livery and other stables apply with equal force to the public property of the city; and the conditions that would render a stable a nuisance in one part of the city must be subject to the same charge in another section, and ownership has nothing to do with the case." Allow us to add, that it is hardly to the credit of a city to be the first to openly violate its own rules and regulations, and our people will scarcely expect our health officer strictly to enforce the ordinance governing livery and other stables, and not have the same rules apply to the city stables.

Let each department of our public work remember that we have outgrown the period of a small town or village, and that conditions that might be pardonable in a sparsely settled town cannot be tolerated in a compactly settled portion of a city without becoming a nuisance; and just so far as a nuisance is allowed to remain in a neighborhood, the valuation of that section is thereby reduced,—therefore, private and public interest must suffer in proportion. Let the city set a worthy example for all others to follow, and there will be no occasion for interference on the part of the health officer.

DO N'T THROW REFUSE MATTER INTO THE STREET.

In this connection we would call the attention of our citizens to the following ordinance: "Sec. 7. No person shall place or leave, or cause to be placed or left, in or near any highway, street, alley, or public place, or in any private lot or inclosure, or in any pond or other body of water where the current will not remove the same, any rubbish, dirt, soot, ashes, hay, shards, ovster, clam, or lobster shells, tin cans, decaying fruit or vegetables, waste water, or any refuse animal or vegetable matter whatsoever, nor keep in or about any dwelling-house, barn, shed, store, shop, or cellar, any of the aforesaid substances in any manner liable to become putrid or offensive, or injurious to the public health." Now, in many sections of the city, people seem to have forgotten that they are not still residing in the country, and daily dump ashes into the street; and in our business centres too little regard is paid to the enforcement of the ordinance, - as dirt, bits of paper, and other refuse are swept into the streets regardless of the fact that they only serve to furnish additional dirt and dust to be driven about by the winds the rest of the day. In larger cities the promiseuous distribution of hand-bills and other advertising matter by irresponsible persons is strictly prohibited, and all our people who are obliged to pack and unpack merchandise on our sidewalks should use great care in preventing paper, straw, and other material used in packing cases, from being unnecessarily scattered along our streets.

In the matter of ashes our health officer has been very lenient, but a reform is needed and an example may be necessary; therefore we add the following section from the same ordinance, which provides the penalty for a violation of any of its provisions:

"Sec. 25. Any person or persons, company, or corporation, who shall violate or cause to be violated, by agent or otherwise, any or either of the sections of this chapter, or any or either of the provisions thereof, or any or either of the orders, rules, or regulations of the board of health, or who shall fail or neglect to comply with any or either of the requirements thereof, by agent or otherwise, upon conviction thereof before the police or other court of competent jurisdiction shall be fined not less than three dollars and not more than one hundred dollars, with the costs of prosecution, for each offence, except in cases where the punishment is made and provided for under the laws of the state, in which cases the penalty so prescribed shall be imposed." At present the gathering of ashes and other garbage from Main street is performed by the street department, and it is unnecessary to add that any one who has witnessed the manner in which is it done, especially when the wind is strong, will affirm that a reform is quite necessary. The earts and other vehicles used in this department were constructed for the repair of streets, and were never intended for the transportation of ashes and other garbage.

CAN WE NOT IMPROVE OUR PRESENT METHOD OF REMOVING ASHES AND REFUSE?

Some provision should be made to have this work performed in a more cleanly manner, and during the summer some other portion of the day should be set apart for this labor rather than during the hours when Main street is througed with people attending to shopping or other work generally pursued during business hours.

HOG-PENS AND OTHER NUISANCES.

There can be no doubt that a hog-pen, barnyard, cow-stable, or chicken-pen, near to other buildings used for dwellings, may and do become nuisances, therefore we append the ordinance which applies to such places.

"Sec. 11. No person or persons shall keep or use any hog-pen, goat-pen, chicken-coop, or barnyard so near to any

public highway as, in the opinion of the sanitary officer, may be offensive or injurious to the public health, or adjoining or abutting any lot upon which any other person resides, if so near them as to be offensive, or in any manner that the contents of such hog-pen, goat-pen, chicken-coop, or barnyard are discharged on said lot, or any street, lane, or alley in the city."

Sensitive people are annoyed, and oftentimes made ill, by the noise of such animals, as well as from the nuisance that obtains from the offensive odors, which will assail the senses unless such places are in better condition than they are generally found to be when the attention of the health officer is called to them.

On account of an application to the city council for a license to erect a hen-house, and the same being referred to the board of health for an opinion, this subject was duly considered, and the following interpretation of the above section was placed on record:

"In the opinion of your board of health it was intended by the city council that the term chicken-coop should have the same significance as the term hen-pen, and in this report the terms will be used as synonymous. It is also our opinion that it was the design of the city council that passed this ordinance to wisely discriminate between conditions that might obtain upon the farm, or in small villages, and there be accounted as being necessary and unobjectionable, while in the city the same or similar conditions would be accounted a nuisance. Civil and personal rights in the compact part of a ward or city demand the exercise of rules and regulations governing the domain of public and private property, and it was in view of such conditions as might arise regarding the hog-pen, hen-coop, goat-pen, &c., that this law was enacted.

"The ordinance allows the health officer to exercise his judgment and give his opinion upon what may be a nuisance, and offensive or injurious to the public health, and we are well aware that many complaints have been made that hen-pens are a nuisance, from different parts of our city and from unprejudiced people residing more than double the distance from henpens than do the abutters and remonstrants in this ease; . . . and it is the opinion of your board of health that a building,

erected upon the grounds as set forth in the petition, may become offensive and injurious to the public health; therefore we return the petition without approval.

"By order of the board of health:

H. A. ROWELL,

Health Officer."

A portion of our report is again brought to your notice, in order that our position may be fully understood, and it is sufficient to add that the penalties above quoted (Sec. 25) apply to this section as well as to the others.

CONCLUSIONS.

In conclusion we would add, the public mind is becoming more and more enlightened upon the subject of public and personal hygiene, and the individual has become more and more critical concerning all matters of personal and public sanitation. It will be found that in proportion to the educational advantages a community have enjoyed, just so far there will be a public demand for a more advanced and a higher standard of moral. mental, and physical conditions. Conveniences that were considered sufficient in Concord for many years subsequent to its incorporation as a city, have given way to a public watersupply, to public sewers, the telephone, electric fire alarm, paved streets, and public parks. Shall we go back again? By no means. Let us, as we are prospered and as our population is increased, meet all the obligations thereby entailed with intelligence, and with such a liberal spirit of improvement that those coming into our city, bringing with them capital and business, shall have no occasion to regret their choice of location, but, rather, that capital and labor alike shall feel that we have a hearty welcome with which to greet them, and a true interest in their welfare and prosperity.

And while there is no royal road leading to health, and man's condition and destiny are much in his own hands, there are duties relating to the public good, in a moral and physical sense, that every good government, whether it be state or municipal, is bound to perform. At the same time, the public must remember, that in the performance of these duties, the obligations

existing between the people and the government are mutual, and no one is exempt from the duties imposed, nor from the enforcement of wholesome rules and regulations that shall allow all, rich and poor alike, to enjoy "life and the pursuit of happiness."

It is with sorrow that we report the death of Dr. H. C. Cummings, who was associated with this board from its reorganization under the present ordinance until the time of his death. He was a conscientions and faithful public servant, ever ready to respond and advise, and one who was devoid of selfishness and personal aggrandizement in connection with all public work.

He was kind, yet earnest; a zealous advocate of sanitary reform, yet never acting without good reason; a firm believer in modern hygiene, yet never obtruding his opinions unless solicited, he was ever ready to stand by his convictions, unless good reason was advanced to prove that a change of sentiment would enhance the value of the work.

In his death the public have lost a firm friend and an ardent believer in the future of our city. May his name be long remembered!

G. P. CONN, M. D.,
E. N. PEARSON, Secretary,
E. A. CLARK, M. D.,

Board of Health,

REPORT OF THE HEALTH OFFICER.

To the Board of Health:

Gentlemen: The health officer herewith submits the report covering the affairs of his office during the year ending Dec. 31, 1890.

The number of requests for investigations and of complaints for existing nuisances aggregate 516, and the nature of the complaints will be shown by the following subdivisions:

Bad well-water,							6
Bad drainage,							14
Dead animals,							18
Defects in sewe	rs,						21
Dumping rubbis	sh,						9
Damp cellars,							.5
Nuisances in ha	ıll-waj	vs,					:;
Dropping manu	re fro	m cai	ts in	street	s,		-6
Filthy stables,							7
Filthy cellars,							8
Filthy water-clo	sets,						14
Filthy yards,							8
Offensive sink-o	drains !	,					38
Diseased horses	s,						-4
Broken sewer ti	raps.						4
Offensive manu	re hea	ips,					11
Stoppages in he	ouse s	ewers	; ,				18
Stagnant water	nnde	r dwe	llings	٠,			5
Stagnant water	unde	r stal	oles,				7
Sinks without t							21
Offensive privie	es and	l vaul	ts,				187

Accumulations of swill and vege	etable	e matt	ter,	17
Offensive cesspools,				9
Open sewers under dwellings,				18
Keeping hogs and pigs, .				8
Throwing out slops,				10
Offensive cow yards,				2
Street sewers obstructed, .				6
Catch-basins not trapped,				11
Offensive offal accumulations,				4
Keeping hens,				7
Throwing swill into alley-ways,				6
Swill in ash barrels in business	block	s,		4
				 516

It will be noticed that the list of complaints is much larger than last year. In my opinion, however, such increase is not because more nuisances exist, but because the people generally are taking more interest in providing against sanitary defects than heretofore.

In most cases the complaints made to the health officer have been well founded, and wherever a nuisance has been found to exist, its abatement has been ordered at once. But there are some complaints that upon investigation are found to originate from quarrels between neighbors, who make complaint for the purpose of making themselves thoroughly disagreeable. All cases are properly examined, however, and such suggestions are made as are likely to obviate future causes of complaint, but people must not expect the health officer to take part in neighborhood or family disagreements. It will be noticed by the list above given that a large number of complaints relate to offensive vaults and privies, and, until proper substitutes are provided, this cause of complaint will continue. It would be hardly judicious at this time to prohibit absolutely the use of vaults, but in connection with the efforts of the board of health it might be well to make more stringent regulations regarding the same. In many cities the individuals who make a business of removing the contents of vaults are regularly licensed by the health board, and a list of charges is also prescribed. If some such arrangement could be made here, the results would undoubtedly be beneficial, as, by restricting the number of licenses, the parties who engage in the business would be enabled to procure suitable conveniences for carrying on the work. For lack of such regulation the present methods of using an open cart, oftentimes leaky and unsuitable, make doubly offensive the odors which pollute the air through every section where such vehicle may be driven.

SANITARY INSPECTIONS.

The system of regular inspections has been continued during the current year, and much improvement has been found in the sanitary condition of premises inspected the previous year. During the year inspections have been made of

- 247 private dwelling-houses,
- 311 tenement-houses.
 - 7 boarding-houses,
 - 57 stables,
 - 8 meat-markets,
 - 2 fish-markets.
 - 13 store cellars,
 - 3 hotels.
 - 17 business blocks.
 - 2 school-houses,

making a total of 667. There have also been second inspections in 231 cases, and third inspections in 112 cases. In a few cases, also, a fourth inspection has been required, for the purpose of determining whether the orders and suggestions of the officer had been fully heeded.

There have been sent through the mail 895 formal notices, embodying suggestions from the board in cases of the following nature:

Abatement of nuisances, .			92
Cleaning vaults and privies,			128
Providing water-closets			294
Removing old privies, .			134
Connecting with public sewer,			126

Removal of hogs,			. 8
Removal of chicken-coops,			. 1
Obstructed private sewers,			. 98
Removal of offal,			. 3
Unburied dead horses.			. 8

There have been 237 cases in which vaults and privies have been removed and water-closets substituted, and there have also been 71 additional water-closets set in new houses built during the past year. These closets have been placed in the following classes of buildings:

Private dwellings,				81
Tenement-houses,				211
Business blocks,				4
Public institution,				1
Church,	·			1
Boarding-houses,				4
Harness-shop, .				1
Stores,				5

The above indicates a large increase over the year 1889, there being nearly 100 more water-closets set, and 93 more vaults and privies removed, showing a marked and encouraging improvement in this special direction.

CONTAGIOUS DISEASES.

Cases of contagious diseases have been reported to this office in each month as follows:

	Jan.	Feb.	April.	May.	June.	Aug.	Sept.	Oct.	Nov.	Dec.
Scarlet-fever,	1	1	1	1	0	0	1	0	0	0
Typhoid fever,	0	1	0	1	2	2	8	2	1	0
Diphtheria,	0	2	0	0	0	0	1	2	1	0
Scarlatina,	0	0	()	2	0	0	0	1	0	1
Measles.	0	2	0	2	0	0	1	1	0	0

In March and July no cases were reported.

These cases have been reported from the following wards:

		Scarlet-fever.	Typhoid fever.	Diphtheria	Scarlatina.	Measles.	Total.
Ward	1.	O	1	1	()	0	-2
	2,	0	()	()	Ó	0	()
	3,	0	1	1	()	0	.2
• •	4,	1	4	()	1	6	12
	5,	0	5	2	1	0	8
	6,	2	2	0	2	0	6
	7,	2	4	2	0	0	8
				_	_		
T	otal,	5	17	6	4	6	38

From the above cases reported seven deaths resulted, two being from diphtheria and five from typhoid fever. During the latter part of August and the first part of September there were so many cases of typhoid fever as to cause much anxiety, and every effort was made to guard against the spread of the disease. Rigid examinations were made for the purpose of tracing the causes, and in one case in particular the investigation was so productive of results as to lead to the belief that the timely discovery of defective drainage pipes prevented what might have been a wide spread epidemic. In the instance referred to, the sewer-pipe passed under an unused portion of the house, where it was not likely to be seen, and its original construction was so faulty that a large opening discharged sewer gas directly under the kitchen and dining-room floors. None of the inmates of the house had suspected the true cause of the difficulty, and when the health officer discovered the condition of affairs the owners were undoubtedly as surprised as they professed to be. Under the orders of the health officer proper changes and repairs were made at once; the house was fumigated, and no further trouble has arisen at that place. The results in this case serve to emphasize the importance of every house-owner's knowledge of his own premises in so far as that knowledge relates to the poisonous sewage which he may be discharging into his own house by reason of improper traps, faulty plumbing, or unavoidable accident.

But two cases of impure well-water have been found during the past year. In one of these cases it was discovered that surface water was allowed to discharge into the well, and two persons who had been using the water were stricken with typhoid fever. A sample was sent to Prof. Angell for analysis, was found to be polluted with vegetable matter and sink drainage, and entirely until for use. The well was ordered to be filled up, and the premises have since then been connected with the city water-works.

SEWER CONNECTIONS.

In accordance with the requirements of the city ordinance, the health officer has endeavored to fulfil his duty in regard to the enforcement of rules and regulations relating to sewers and The inspections required for this purpose, and the making of the records of the location of inlets-where connected to the public sewer-with the location of inside and outside traps, has consumed a great deal of time, but it is believed that the results obtained have been beneficial. The experience of the past year has been such that I repeat the recommendation made in the report of last year in regard to the granting of sewer permits. As the ordinance now stands, the permit is issued by the Committee on Sewers and Drains, and unless the health officer is notified by that committee every time that a permit is granted, it is almost impossible for him to comply with the ordinance relating to the inspection of the connections. thought desirable still to burden that committee with the formality of issning permits, I would suggest that a requirement that such permit be countersigned by the health officer might perhaps accomplish the desired result.

In laying the main sewer through any street, it has been the custom to prepare inlets for each lot, whether they were for immediate use or not, and it is desirable that such inlets should be used wherever it is possible, instead of cutting a new entrance to the sewer. As the sewer map, on file at the city clerk's office, shows the location of all such inlets, it is possible for every one who desires to take advantage of it. If it were made a requirement upon the granting of a permit to use such inlet, it would prevent many of the right-angled connections which are now made, and which are objectionable when a diagonal connection can be made instead.

During the past year there have been made 146 sewer connections, and the health officer has kept a full and complete record of the date of connection, location of inlet, location of trap, size of pipe, kind of pipe, rate of fall per foot, total length of pipe, and the name of the licensed drain-layer doing the work. In most cases the drain-layers licensed by the city council have attended to their duties according to the requirements of the city ordinances, and have notified the inspector when ready to make connections with the public sewer.

The inspections which have been made of lateral sewers connected with the main sewer, show that the material used has been of good quality in all cases, being entirely of Akron pipe or cast-iron pipe. The length of the different sizes which have been laid is as follows:

```
Ten-inch Akron pipe, 40 feet.

Eight-inch 252 ...

Six-inch 2475 ...

iron pipe, 160 ...

Five-inch Akron pipe, 6749 ...

Four-inch ... 74 ...

Three-inch ... 30 ...
```

making a total of

9780 feet,

or an average of about 67 feet each for the 146 different lateral sewers constructed.

The premises thus provided with sewer connections furnish lateral sewers for

```
62 private dwellings,
120 tenements,
2 boarding-houses,
5 business blocks,
1 market.
```

3 stables.

1 barber-shop,

1 barn-yard,

and 40 of the above have been connected with new houses erected during the year.

Eight lateral sewers have been taken up and relaid with larger pipe, for the purpose of making connections for water-closets. In eight other cases plank drains, cement and stone drains, have been taken up and replaced by Akron pipe.

By order of the board of health, or at its suggestion, there have been abandoned and discontinued during the current year,—

26 cesspools,

52 surface drains.

7 wells used as cesspools,

5 drains discharging under stables.

The main sewers have been extended to many localities where needed, as will be seen by the report of the Committee on Sewers and Drains, and a large section has thus been permanently provided with drainage facilities.

The extension of the Walker street sewer from Bradley street to Rumford street provides sewer accommodations for fourteen houses now erected, of which ten have already made connections.

The Highland street sewer provides sewer accommodations for ten dwelling-houses, of which nine have already connected.

The new sewer built in Ferry street provides sewer accommodations for seven dwelling-houses, of which six have already connected, and also provides for disposing of the objectionable features connected with a cow-yard adjoining that street.

A new sewer has been built in High street, providing sewer accommodations for three dwelling-houses, of which two have already connected.

The extension of the School street sewer from Tahanto to Pine street furnishes sewer accommodations for four building lots, and one dwelling-house which has already connected.

The new sewer in Tahanto street provides for three dwelling-honses, of which one has already connected.

A new sewer has been built in Waverly street providing sewer accommodations for ten dwelling-houses, of which seven have already connected.

The Mills street extension to Downing street provides for three dwelling-houses, of which two have connected.

Since the beginning of the present year a monthly statement

of the mortality of the city has been prepared from the returns made to the city registrar. These have been sent in exchange to other cities, and the reports thus received from different sections show that the average death rate is below most of the cities and towns thus far heard from

It will be seen by the foregoing statement of the business transacted in connection with this office that the duties of the sanitary officer are continuous and varied in character, and frequently of such a nature as to require the exercise of much patience and discretion; but the results accomplished show a very considerable progress in sanitary improvement, and a growing appreciation on the part of the public of the means which are used to insure their health and safety.

Respectfully submitted:

HENRY A. ROWELL, Sanitary Officer.

REPORT OF THE CITY PHYSICIAN.

To the City Council:

The services of the City Physician, for the year 1890, have been required as follows:

Whole number of visits,			96
Consultations at office,			12
Obstetric cases attended,			1

While matters relating to public health come more properly within the province of the board of health, and are quite fully discussed in their report, the City Physician would embrace this opportunity to congratulate our city on the marked improvement, in the past two years, in the sanitary condition of the cheaper class of tenements and their surroundings.

Respectfully submitted:

E. A. CLARK, M. D., City Physician.

POOR DEPARTMENT.

TWENTY-THIRD ANNUAL REPORT OF THE OVERSEER OF THE POOR FOR THE YEAR ENDING DECEMBER 31, 1890.

To the City Council:

Gentlemen: The undersigned herewith submits the twenty-third annual report of expenditures for the poor, including Wards 1 and 2, for the year ending December 31, 1890, as follows:

Families and individuals having a settlement in the city have been aided, in part or in full, during the time, to the amount set opposite their respective names.

POLICE DEPARTMENT.

REPORT OF THE CITY MARSHAL.

To the City Council:

Gentlemen: I respectfully present the following report of the doings of the Police Department for the year ending December 31, 1890:

ORGANIZATION.

The police force of Concord at the date of this report consists of the following officers:

City Marshal-G. Scott Locke.

Assistant City Marshal-John E. Tucker (on duty nights).

No. 2, Captain of Night Watch-James E. Rand (on duty nights).

No. 3, Patrolman—Charles H. Sanders (on duty nights).

- .. 4. Daniel S. Flanders (on day duty).
- .. 5. Horace Robinson (on duty nights).
- .. 6. Fred M. Eaton (on duty nights).
- .. 7. Vacancy to be filled (on duty nights).

SPECIAL RESERVE OFFICERS.*

No. 12, Charles L. Gilmore, Captain.

No. 8, Amos B. Sanborn. No.	17.	Geo.	W.	Chesley.
-----------------------------	-----	------	----	----------

- " 9, Geo. H. Silsby.
- " 18, Chas. P. Webster.
- " 10, John T. Batchelder.
- " 19, Jacob E. Hutchins.
- · 11, John E. Baker.
- · 20, James G. Leighton.
- · 13, W. A. Flanders.
- " 21, Henry A. Rowell.
- " 14, W. A. Little.

- " 22, O. H. Bean. " 23, W. H. H. Patch.
- " 15, Sylvester P. Danforth. " 16, Irving B. Robinson.
- " 24, J. P. W. Roach.

I would most respectfully suggest that this department requires a team. Frequently we are called to some part of the city to make an arrest, but before we can procure a team and arrive at our destination the party has escaped, and that old question is asked, "Where are the police?" What would the public think, or say, if the fire department were obliged to go to livery stables to hire horses in case of an alarm of fire? It is just as essential that the police should respond at once to all calls.

ADDITIONAL DAY OFFICER.

I would recommend the appointment of one additional day police officer. There are many cases that need investigation, witnesses to look up, etc.; and when the City Marshal is obliged to be absent from the office, no officer is on the street in the daytime. If we had no outside extra work to do, perhaps the present force would be sufficient. It should be borne in mind, that the first thing a criminal does after committing a crime is to beat a retreat, and that it takes some time to institute a search for him; also, that it reduces the force for patrol duty. Surely it is desirable to have a patrolman on duty continuously.

COASTING.

I would also suggest that the City Council furnish some place for children to coast and skate, at a small expense. The pond at White Park could be prepared for a skating-rink, and would relieve our streets of many children who endanger themselves and others.

DOGS.

The ordinance compelling owners to license their dogs caused the disposal of a large number of the same, for the reason that if a man thinks enough of his dog to pay a five-dollar license, he will not allow it to run the streets to annoy and disgust the public. It had a desirable effect; but it should be amended, as it is defective in its present form.

POLICE STATION.

To Mayor Stillman Humphrey and the City Council the citizens of Concord should be grateful for the model Police Station, which was so much needed. That we have one of the most convenient and suitable buildings for its purpose in New England there is no doubt. If another were to be built, I could suggest no change, except, in case a team should be furnished this department, a shed should be added to the south end of the building for the same.

POLICE FORCE.

Concord should be congratulated upon its police force. Your police officers are men of sterling qualities and steady habits. Their efficiency is the best recommendation they can have. I can state with pleasure that each has heartily seconded my endeavors, and I hereby return my grateful appreciation of their realous efforts.

SPECIAL RESERVE OFFICERS.

The reserve officers have done valuable service, and aided the regular force materially during the past year. It is a valuable part of the police force of Concord in case of necessity. The thanks of this department are due them for their services, and to Captain Gilmore for the time and patience he has bestowed in making them the finest appearing body of police (for its number) in New England. I would suggest that these men, having seen service and having a certain amount of experience, are the better equipped and qualified for the position of police officers, and that when a vacancy occurs it should, if practicable, be filled from this squad. That such a course would be an incentive to the men to do duty, which at times is neither convenient nor pleasant, there can be no doubt.

IN CONCLUSION.

To the Board of Mayor and Aldermen I return my sincere thanks for the courteons treatment this department has received at their hands.

I wish to extend especially to His Honor Stillman Humphrey, the Mayor and Chief of Police, my sincere thanks for the kind consideration, loyalty, and assistance rendered at all times.

Harry G. Sargent, Esq., City Solicitor, has always, and under trying circumstances, been ready and willing to aid us in all cases; for which this department is under many obligations.

Respectfully submitted:

G. SCOTT LOCKE,

City Marshal.

REPORT OF THE POLICE JUSTICE.

Concord, N. H., February 25, 1891.

REPORT OF THE CITY SOLICITOR.

To the City Council:

The cases of Merrick & Martin and Naney L. Dutton against the city, pending at the date of my last annual report, have been disposed of. These cases were appeals from the award of damages by the mayor and aldermen for the Elm House property, which was taken for the Pleasant street extension. In the Dutton case, a settlement was agreed on, increasing the amount awarded by the mayor and aldermen from \$14.017 to \$17,000, Mrs. Dutton to bear the expense of removing the buildings. In the Merrick & Martin case, the county commissioners awarded damages in the sum of \$2,800.

The case of John C. Smith against the city, to recover \$1,000 for injuries occasioned by an alleged defect in the highway, has been settled by the Concord Horse Railroad without expense to the city.

In the case of the Amoskeag Manufacturing Company against Concord, the commissioners have made a report sustaining the claim of the city to tax a portion of the water-power at Garvin's Falls. The case has been taken to the law term of the supreme court on exceptions claimed by the Amoskeag Manufacturing Company.

In June, 1890, the city procured an injunction against Betsey J. Burleigh, to restrain her from violating the provision of the building ordinance within the limits of the fire precinct. A hearing was subsequently had before one of the justices of the supreme court, on the petition of Mrs. Burleigh to dissolve the injunction, which resulted in the injunction's being sustained.

In the case of Haskell against Concord, the referee, Hon. Jeremiah Smith, of Dover, resigned his commission as referee, and the case now stands in order for trial by jury.

The case of Maria Harrison against the city was continued at the October term. 1890, of the supreme court, on account of the serious illness of the commissioner of highways, one of the principal witnesses for the city.

The case of Merrimack County against Concord, pending in the law term of the supreme court, was decided adversely to the city at the adjourned law term in July, 1890. A motion for a rehearing was granted, and the case was argued orally by the solicitor in December last.

The case of Lowell Eastman against Concord, which is an appeal from the assessment of damages by the board of mayor and aldermen in laying out Durgin street, has been referred to the county commissioners, and is now pending before them.

The case of Benjamin E. Badger and William S. Badger v. Concord is an appeal from the award of damages assessed by the mayor and aldermen in laying out ————————— street. It was filed in court August 6, 1890, and has been referred to the county commissioners.

August 11, 1890, a suit was brought against the city by Charles R. Burnham, to recover for injuries alleged to have been caused by an icy sidewalk on Chapel street, in which damages are claimed in the sum of \$10,000.

Notice has been served on the city by George W. Waters, alleging injuries to his person, horse, and sleigh, caused by the alleged improper and illegal use of the steam motor of the Concord Horse Railroad, near the junction of Main, Fiske, and Church streets, and claiming damages from said city to the amount of \$530.

HARRY G. SARGENT,

City Solicitor.

REPORT OF CITY LIQUOR AGENT.

To the City Council:

In compliance with section 11, chapter 109, of the General Laws of this state, and the resolution of the Board of Mayor and Aldermen, of May 26, 1888, establishing this agency, I respectfully report the transactions of this office for the year 1890.

Respectfully submitted:

M. LADD,

City Liquor Agent.

Concord, N. II., December 31, 1890.

STATE OF NEW HAMPSHIRE, MERRIMACK COUNTY SS.

January 12, 1891.

Personally appeared M. Ladd, and made oath that the fore-going account by him rendered is correct, according to his best knowledge and belief. Before me,

J. A. COCHRAN,

Justice of the Peace.

REPORT OF THE PARK COMMISSIONERS.

To the City Council:

The Park Commissioners present herewith their second annual report, covering the year 1890.

The plans made by Mr. Charles Eliot, referred to in our previous report, have been taken as a basis for all work done during the year, with the purpose of carrying out in detail, as circumstances will permit, the various suggestions of that gentleman, so that when completed the park will present a harmonious and suitable design, without regard to the order in which the improvements may be taken up.

As will be seen by the report of the treasurer, the appropriation has been expended in carrying on the work as outlined above, and very satisfactory progress has been made in certain directions, and of such a character as to be apparent to the public.

The most of the work has been done under the supervision of Mr. J. N. McClintock, civil engineer, who has faithfully carried out the suggestions of the commissioners in conformity with the general plan above alluded to. The gravel banks, and the knoll composed of hard-pan and boulders, contiguous to Washington street, were of such a character that it was decided to invite propositions for their removal by contract, and an arrangement was made with Brown & Abbott by which the soil and rocks were removed to such parts of the park as required filling, and the grading practically completed upon that portion lying near Washington and White streets during the season. With such sandy soil, it became necessary to procure a sufficient amount of loam for the future proper cultivation of the land, and investigation was made with a view of ascertaining the possibility of securing so large an amount as would be required. It was found that in the south-west portion of the park a peat-bed extended to an unknown depth, and that a large amount of soil could there be obtained, which would probably, after exposure to the elements, provide a fertile, friable loam. Accordingly trenches were sunk, and a large amount of peat was obtained and spread upon the surface of the sandy subsoil, which had been removed to a sufficient depth to allow a proper coating of loam to bring it to grade, and these trenches were afterward filled with the worthless subsoil and rocks, with sufficient covering, and the ground then levelled.

Later in the season work was begun upon the proposed lake, lying in the lower part of the park, and the muck thus removed was used to supplement the peat removed from the peat-bed in covering the exposed subsoil. This work was pushed farther than was at first contemplated for this season, the result being that this excavation is practically completed, and hundreds of loads of rich muck have been used in grading the sandy surface to its proper level. It is possible that the character of this soil is such that it may require exposure to the weather for some time before being in suitable condition for the culture of such plants and shrubs as it may be desirable to plant in it, or that it may be necessary to make an admixture of a lighter loam to produce satisfactory results; but, without its use, it would have been very difficult, if not practically impossible, to procure sufficient suitable loam from a distance to provide for all the necessities of grading.

The various walks and paths indicated upon the plan upon the south-east portion of the park have been carefully laid out and graded with suitable material, so that comparatively little work will require to be done to complete these very necessary adjuncts to the park. A stone foundation has been laid for a bridge across the small stream flowing from the lake, so that a bridge of suitable design can be erected at any time, when it is thought proper and the appropriation will admit.

A large amount of work has also been done, under the supervision of Mr. Curtis White, in clearing up the underbrush and stones in different portions of the park, and smoothing the surface in preparation for the future, so that much has thus been accomplished which was quite as necessary, though not so apparent to the observation of the public as other branches of the work.

The great interest which has been manifested in the work by the citizens generally has been a source of much satisfaction to the commissioners, who have been pleased to notice the continually increasing number of visitors while the work has been in progress; and as certain portions of the park assume a more finished appearance, it is not likely that such interest will diminish. What has already been done serves to bring into more prominence the requirements of the future, but it is not intended to proceed beyond the limits of the appropriation which may be made in any single season, though it is plain to be seen that a few years will accomplish wonders towards securing a most delightful, quiet, and healthful retreat for all classes of citizens within the boundaries of the park.

The commissioners recommend the purchase of the small strip of land lying at the northerly end of the park, next to the extension of Beacon street, which can be secured for a reasonable sum. The ownership of this strip of land will secure to the city a park bounded on all its sides by streets when Beacon street shall be extended, with the exception of a small corner owned by Mr. James H. Rowell, who has expressed himself as willing to give the city the option of purchasing his lots whenever he shall part with his personal ownership.

It seems desirable that something in the nature of a fence should be erected upon the Washington street side during the coming year, and although it may be thought best eventually to make this margin of stone curbing, it is believed that a small outlay each year in that direction is preferable to the use of the large amount which would be required for completing improvements at once. It is probable that a light fence, of neat design but inexpensive, may be decided upon as a temporary expedient, leaving a more permanent structure to the decision of the future. In order to make such fence effective, however, as an outline, it is desirable that a concrete sidewalk be completed on Washington street during the coming season, as its construction in the near future is a necessity, and the required appropriation at this time will materially aid the commissioners in a proper development of those parts of the park which may be contiguous thereto.

The commissioners believe that the money thus far expended

has been a good investment for the city, and that the lapse of time will serve to emphasize the desirable results which will accrue to its citizens from thus securing, in a convenient and easily accessible location, a park which, though limited in area, combines so many advantages.

That others who are interested in beautiful natural scenery appreciate the possibilities of White Park is shown by a lengthy description of the same in *Garden and Forest* of August 13, 1890, and the purposes of the commission, as there given, may may appropriately find place here:

"The commission intends to make the park a place of quiet resort for people who cannot take the time, or who have not the strength, to go often to find refreshment in the open country. No claborate gardening will be admitted, not only because it is costly, but also because it would be incongruous. Every city of the new West may have its carpet-bed 'park,' if it so wishes, but Concord proposes to seize her opportunity to provide for her citizens and their posterity something very much more valuable. She will set aside and preserve, for the enjoyment of all orderly townspeople, a typical, strikingly beautiful, and very easily accessible bit of New England landscape. Would that every American city and town might thus save for its citizens some characteristic portion of its neighboring country!"

STILLMAN HUMPHREY, JOHN F. JONES, BENJAMIN C. WHITE, HENRY W. CLAPP, WILLIAM P. FISKE, GEORGE A. YOUNG, EDGAR H. WOODMAN,

Park Commissioners.

TREASURER'S REPORT.

WILLIAM P. FISKE, TREASURER, IN ACCOUNT WITH PARK COMMI	ISSIONERS.

MILLVILLE CEMETERY.

The Millville Cemetery Committee respectfully submit the following report:

In 1885 a subscription paper was circulated among persons interested, to raise money to care for and improve the cemetery. The committee acknowledge the receipt of money thus subscribed, the sum of \$174.75.

The committee has deposited \$150 of the above sum with the city of Concord for a permanent fund, the annual income to be applied by the committee for the benefit of the cemetery.

The balance of \$24.75, together with \$15 received as interest, has been expended as follows:

raid for work.	, 111	1000,	•	•	•	\$4.00

Committee.

REPORT OF THE SPECIAL COMMITTEE FOR THE IMPROVEMENT OF BLOSSOM HILL CEMETERY.

To the City Council:

At the close of last year (1889) there remained to be built on the street line at the northerly front of the cemetery about 350 linear feet of wall; this has been laid the present year, leaving an opening for a carriage entrance at the north-east corner of the grounds, where a tasteful gate of wrought-iron will be placed, and the stone posts finished to correspond in design with the work of the main entrance. The street wall is now substantially completed, except the curved approaches to the proposed gateway and a post or two at the southerly end of the wall similar to those at the northern terminal. These approaches will comprise about 70 feet of convex curving wall on each side of the entrance way, or a total length of about 140 feet, which should be laid by carefully considered plans in a thoroughly artistic manner.

Your committee very much regret that the last mentioned work has not been accomplished the present year as was promised in our last report. They had hoped at this time to be able to announce the wall complete and in readiness for the arched gateway, but the unusual demand for stone masonry for building purposes the past season made it quite difficult to contract upon favorable terms for the work desired, and delayed until late in the season the work which should have begun with the opening of spring. The delay in wall-building necessarily delayed the intended grading, a pressing and urgent need for which has been so long manifest. It is hoped that the coming season, with sufficient means provided, may witness at least the completion of the wall and the skilful grading of the entire front.

We again plead for a more speedy accomplishment of this long delayed and greatly needed work. This cemetery is consecrated as few other spots on earth can ever be for us: it is the abode of our beloved kindred who made comely and prosperous the city in which we live, and attractive these homes which we enjoy,—who made for us sacrifices we can never make for them. Unsurpassed as it is in natural beauty, may its outward adornment be speedily made to fittingly correspond with the tasteful and tender care within!

The special committee which has been carrying on this work, created by an ordinance of the city passed May 16, 1887, for a term of three years, has been by a later act, passed November 11, 1890, dissolved, and on the latter date ceased to exist. A board of six persons, styled Commissioners of Cemeteries, are their successors. May they receive the cordial support of your honorable body and the general public.

Respectfully submitted:

JOHN C. ORDWAY,

Secretary of the late Committee.

Concord, December 1, 1890.

REPORT OF THE COMMITTEE

ON FRONT WALL OF BLOSSOM HILL CEMETERY.

To the City Council of the City of Concord:

The committee, to whom was intrusted the erection of the wall in front of Blossom Hill cemetery, continued the work assigned them during the season of 1890, and have completed the same, as designed, with the exception of the returns to the main entrance.

The amount of n	oney	stand	ling t	o the	eir	
credit at the b	eginn	ing of	f the	seaso	on	
of 1890 was					. \$70.40	
Appropriated in 18	390,				. 4,000.00	
						\$4,070.40
Amount expended vation, and sur			•			•
of 1890 was		•	•	•	•	1,722.80
Balance on hand						\$2,347.67

This amount is deemed sufficient to complete returns above mentioned and commence the extension of the wall along the front of the Roman Catholic cemetery, if such be ordered,—as, in the opinion of the undersigned, it should be. It is important that the north end of Rumford street, in front of the cemetery, should be graded as contemplated, as further delay will injure the wall erected two years ago.

Respectfully submitted:

J. B. WALKER.

For the Committee.

Concord, February 18, 1891.

FIRE DEPARTMENT.

REPORT OF THE CHIEF-ENGINEER.

To His Honor the Mayor and Gentlemen of the City Council:

In compliance with the rules governing the Fire Department, I have the honor to submit the report of the Fire Department, giving in detail the work done during the year 1890.

This year has seen decided improvement in the apparatus. A new first-class Amoskeag engine has been purchased, and, having been satisfactorily tested has been put in commission. There have been put in charge of the Eagle Hose Company 1,000 feet of fabric hose and 400 feet of ladders, including six extension ladders put in service. One new alarm box, 56, has been put in at St. Paul's School.

FIRES AND ALARMS.

The Precinct Department responded to sixteen box and sixteen still alarms.

Penacook Department responded to seven alarms.

West Concord Department responded to two alarms.

ALARMS AND FIRES IN PRECINCT.

January 12, 6:21 a. m., box 25, buildings owned by Stevens & Duncklee, on Main street, occupied by themselves and F. A. Bates.

HYDRANTS.

There are 183 public and 22 private hydrants, 9 public hydrants having been put in this year.

APPARATUS AND FORCE.

The force of the Department is as follows: Precinct, located at the Central Fire Station, one first-class Amoskeag engine, "Eagle," with Eagle Hose Company (13 men); two second-class Amoskeag engines, "Kearsarge," with Kearsarge Hose Company (16 men); "Gov. Hill," relief steamer, in charge of an engineer and fireman belonging to "Kearsarge Company;" the Hook and Ladder Company, "City of Concord" (20 men). There are seven horses, owned by the Department, kept at this station.

The Alert Hose Company (12 men), located on Washington street, has a modern hose wagon, and have a horse at the house at all hours.

The Good-Will Hose Company, located corner of Cross and

State streets, has a modern hose wagon, and have a horse at the house at all hours.

All the members, excepting steward, assistant steward, and three drivers at the Central Fire Station, are call men.

The Precinct companies have swing harnesses on all apparatus.

The "Pioneer" steamer, at Penacook (28 men), is a fourthclass Silsby, with second-class Amoskeag reel (4 wheels). The steamer can be drawn by hand or horses, as necessity requires.

The Cataract Company (30 men), at West Concord, has a Hunneman 6-inch eylinder hand-engine, and a second-class 4-wheel reel, Amoskeag make, drawn by one horse and provided with swing harness.

Old Fort, at East Concord (30 men), has a 5-inch cylinder Hunneman hand-engine.

We wish to express our obligations to the Mayor and Committee on Fire Department for the interest taken in this Department during the year, and for the many courtesies shown us. To the members of the several companies we are indebted for the prompt manner in which they have responded to all calls of duty, and for the zeal with which all their work has been done.

The Police Department has been prompt in responding to alarms, and has rendered valuable service in keeping the streets at the fires free from crowds, greatly aiding the men in their work.

CHARLES A. DAVIS,

Chief of Fire Department.

REGULATIONS OF THE CONCORD PRECINCT FIRE DEPARTMENT.

ADOPTED BY THE BOARD OF ENGINEERS, AUGUST, 1888.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached in order to reach the fire; and any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line in lieu of laying a line of its own.

- ART. 2. When two or more engine or hose companies are playing in a continuous line, the pipe shall belong to the company attaching to the hydrant or steamer, as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.
- ART. 3. Each engine and hose company shall have equal claim to the hydrants; but it is enjoined upon the engine companies to draught their own water from a reservoir, wherever a suitable one can be found within a reasonable distance.
- ART. 4. No company shall take possession of a hydrant or reservoir, unless their hose and apparatus for attaching to the same are at hand and ready for use. The company which shall be thus ready shall be entitled to such hydrant or reservoir; but, upon the order of an engineer, another company may attach a second line of hose from such hydrant or steamer, in case the same may be necessary, such company having first laid its hose, and being ready to attach the same.
- ART. 5. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose when he has ascertained that another has command of it, unless by consent of the engineer in charge of it, or by orders of the officer in command at the fire; and it shall be his duty to inquire whether there is an officer in charge.
- ART. 6. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

- ART. 7. No company, while returning from a fire, will be allowed to proceed faster than a walk, and it must at all times keep on the right of the street. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.
- ART. 8. No member of any company shall leave the city without first informing his foreman; no foreman or assistant engineer, without first notifying the chief engineer,—in each case the party so leaving providing a substitute.
- ART. 9. In case of fire, the foreman first arriving shall be in command until the arrival of an engineer.
- Art. 10. Any order issued by the chief or an assistant engineer shall be promptly obeyed.

RULES FOR DRIVERS.

The drivers shall be required to occupy sleeping apartments in the Central Station, each being allowed two nights off each week, from 9 o'clock P. M. to 6 o'clock A. M., upon particular nights to be designated, by the steward.

They shall be at or near the station at all times, except when employed by the superintendent of streets, or absent by permission of the steward or an engineer, and shall perform such duties as the steward or chiefengineer may direct.

They shall groom and take proper and trusty care of their horses; shall keep the stables clean, and the harnesses and all things pertaining to their department in order; shall have the horses harnessed as directed, and not leave the station without everything in readiness for immediate service; shall exercise their horses when required by the steward or chiefengineer, and practise care and economy in feeding and general management.

In proceeding to Main street, via Warren street, the drivers shall trot their horses and have them under complete control until the turn has been made.

In case of fire, the drivers shall be subject to the orders of any engineer.

FIRE-ALARM TELEGRAPH.

NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz.:

DISTRICT 1 Embraces that section of the city north and west of Washington street, box 17 of this division being located on the *south* side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 and 5. Embrace all south of Pleasant street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 13. Franklin and Rumford.
- 14. State and Penacook.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. Greeley & Todd's store.

DISTRICT No. 2.

- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central Fire Station.
- 35. Main and Pleasant.
- 36. Pleasant and Spring.
- 37. Junction Pleasant and Washington.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good-Will Hose House.
- 43. Main and Favette.
- 45. L. B. Hoit's store.

- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.

District No. 5.

- 52. Turnpike and Allison.
- 56. St. Paul's School.

PRIVATE BOXES.

- 5. Concord and Northern Railroads-north end Passenger Depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire Asylum for the Insane.
- 8. Page Belting Company.
- 33. State-house.

Names of key-holders will be found on the boxes.

FIRE-ALARM SIGNALS.

- Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, and 56, will not be responded to by the Alert Hose until signalled. The signal to proceed to the fire will be a second alarm; the signal of dismissal, three strokes of the bells.
- 2. Alarms rung in from boxes 13, 14, 15, 16, 17, 18, 23, 26, and 56, will not be responded to by Good-Will Hose until signalled. They will be governed by the same signals as the Alert Hose.
- 3. Eleven consecutive strokes of the bells, following any regular box alarm, or during any fire, is a call for the relief steamer (Gov. Hill).
- 4. Two rounds of each eleven strokes of the bells, with an intermission of one minute between the rounds, without any regular box alarm, will signalize the requirement of a steamer from outside the Precinct, and will be responded to by Kearsarge and Eagle Hose companies alone. In case further aid is necessary, the box-alarm 34 (Central Station) will follow.

(These rounds of eleven strokes, which are signals for the relief steamer, or a call from out of town, must not be confounded with an alarm from private boxes 5, 6, 7, or 8.)

From the above, it will be seen that the companies are subject to calls as follows:

Steamer Kearsarge and Hose-To all calls.

Eagle Hose—To all calls.

Hook and Ladder-To box alarms only.

Alert Hose—To box alarms only above Pleasant street, all private boxes, and upon second alarm to boxes below.

Good-Will Hose—To box alarms only below Centre street, all private boxes, and upon second alarm to boxes above.

The signal for dismissal (three strokes) is used only for the purpose of notifying the companies not on duty that their services are not required, and does not imply that the fire is out, or that the companies on duty are dismissed.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4:30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box; and the box will then be cut out, and no additional round sounded. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bell will be struck from the button of a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH

Is the "Gamewell" patent. It embraces twenty-four miles of wire on the main lines, and seven miles of extension wire for call-bells.

On the main line are twenty-six fire-alarm boxes belonging to the city, and five private boxes,—in all, thirty-one. There are three alarm bells,—one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also seven engine-house gongs, four mechanical tappers, one four-circuit repeater, and three indicators.

On the extension line are twenty-three call-bells.

The battery consists of 103 cups for the main line, and five cups for the extension.

The alarm was put in in 1880 by Edwin Rogers, 27 Federal street, Boston, Mass.

F. Griffin; thence northerly on the westerly line of said Griffin's land to the south-east corner of land owned by Robert Crowley; thence westerly on the southerly line of said Crowley's land to the south-west corner; thence northerly on the westerly line to the north-west corner; thence easterly on the northerly line of said Crowlev's land to the head of Long Pond; thence on the south-westerly shore of Long Pond to the bound first mentioned.

Passed April 9, 1889.

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE PASSED MARCH 31, 1887. ENTITLED "An Ordinance relating TO THE HEALTH."

amended.

Section 1. That Section 3 of an ordinance passed March Ordinance re- 31, 1887, entitled "An Ordinance relating to the Public lating to public health," be amended by striking out all of said section before the words "He shall act," in the tenth line, and inserting in place thereof the following,-The sanitary officer shall devote his entire time to the performance of the duties imposed upon him by virtue of his office. He shall receive for his services the sum of seven hundred dollars per annum.—so that said section as amended shall read as follows: The sanitary officer shall devote his entire time to the Sanitary offi- performance of the duties imposed upon him by virtue of He shall receive for his services the sum of seven

cer. Salary his office. hundred dollars per annum. He shall act as the executive num.

officer of the board of health, shall serve all orders and Duties of sanitary offinotices issued by the board, and shall enforce all rules and cer. regulations issued by the board, as well as all the ordinances and rules relating to nuisances or other conditions affecting the health and comfort of the public.

Sec. 2. That Section 6 of said ordinance be amended by inserting after the word "enforced" in the third line, the

following,—He shall inspect all private drains laid by any licensed drain-layer before the same are covered, and shall Health ordinance further report mouthly to the board of health and to the Committee amended. on Sewers and Drains the result of said inspection, giving the name of the owner and of the occupant of the premises, the street and number, the position of the inlet employed, the size of the drain, inclination of the same, and manner in which it enters the main sewer,-so that said section as amended shall read as follows: "The sanitary officer shall Sanitary officers see that Sections 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, of Chapter cer to enforce other XXII of the Revised Ordinances of 1884, relating to sewers nances. and drains, are enforced. He shall inspect all private drains laid by any licensed drain-layer before the same are covered, and shall report monthly to the board of health and to the Committee on Sewers and Drains the result of said inspection tion, giving the name of the owner and of the occupant of of drainsthe premises, the street and number, the position of the inlet ports of same. employed, the size of the drain, inclination of the same, and manner in which it enters the main sewer, and shall perform such other duties in the enforcement of the provisions of said ordinance as may be authorized by the city council or the Committee on Sewers; he shall also enforce the provisions of Section 11, Chapter XXI, relating to the Pollution of pollution of the waters of Penacook lake." In case that water-supply. any licensed drain-layer shall at any time have his excavating completed, and there is a liability of an immediate rain-storm or shower, or from any other cause, a liability of the ditch caving in so as to cause a serious trouble or expense to said drain-layer or owner of the property to which

the drain is being laid, if not immediately connected and Committee back-filled, and in case said sanitary officer shall be out of Drains to act the city proper, or from any other cause be unable to give in absence of sanitary offihis immediate attention, any member of the Committee on cer.

SEC. 3. That Section 16 of said ordinance be amended by Health ordinance further inserting after the last line the following,—And the owner, amended.

Sewers and Drains may (and shall be required) be substi-

tuted to fill his place in any and all such cases.

agent, occupant, or any other person having the care of any stable, barn, premises, or any other place where manure, swill, garbage, or any other animal or vegetable substances accumulate, shall cause the same to be removed as often as once every week at the written request of the board of health,—so that said section as amended shall read as follows: "No manure from stable, barn, or any other place, within the compact part of the city, shall be allowed to accumulate until it becomes offensive to persons residing in the vicinity, or passing along any street, lane, or highway; and no swill or garbage, or any other animal or vegetable substances, shall be allowed to accumulate in or about any premises, until the same shall become offensive or putrid; and the owner, agent, occupant, or any other person having the care of any stable, barn, premises, or any other place where manure, swill, garbage, or any other animal or vegetable substances accumulate, shall cause the same to be

removed as often as once every week at the written request

Removal of garbage, etc.

of the board of health." Passed May 14, 1889.

AN ORDINANCE INCREASING THE SALARY OF THE CITY MARSHAL.

Section 1. That Section 7 of Chapter XXXII of the Revised Ordinances be amended by inserting in place of the Salary \$1.200 word "nine" in the second line of said section, the word twelve, so that said section as amended shall read as follows: "The city marshal shall receive in full for his services the sum of twelve hundred dollars per annum."

Sec. 2. This ordinance shall take effect upon its passage, and shall apply to the present municipal term of office of the city marshal.

Passed July 9, 1889.

AN ORDINANCE TO BORROW MONEY IN AID OF UNION SCHOOL-DISTRICT IN CONCORD.

Passed October 8, 1889.

AN ORDINANCE GOVERNING THE INTRODUCTION AND USE OF TELE-PRONG-TELEGRAPHIC-ELECTRIC POWER OR ILLUMINATING WHEES AND FIXTURES IN THE PUBLIC STREETS AND WAYS OF THE CITY OF Concord.

Section 1. No person, company, or corporation shall here-

after erect, construct, put up, or maintain any pole or wires for telephonic-telegraphic-electric power or electric lighting, or for any other purposes, along, across, or over any public granted by street, sidewalk, park or square, within the corporate limits of or and alderthis city, without permission having first been obtained from the board of mayor and aldermen; and no such license shall be granted by said board except upon written application, stating for what purpose or purposes said wire or wires are to be used; and all licenses so issued shall forever thereafter be subject to such alterations, restrictions, and requirements as said board may from time to time impose, and, further, subject to revocation when in the judgment of said board the public interests will be best subserved thereby; and all poles, wires, or other electrical appliances now in use shall be subject to the same conditions before and hereinafter mentioned; and no license shall be granted by said board of aldermen, or accepted by the parties making application for such grant, except upon the further conditions following: That the city shall in no case be deemed liable for any injury Liability or damage to persons or property occasioned by or in conse-the city for quence of the use of said electric wires, poles, or other appli-jury or damances, but the parties owning the same and accepting of such

License

permits are understood to promise and agree to defend all suits and assume all damage arising therefrom, and such permits shall be granted upon such terms and conditions only.

Attaching apparatus buildings.

Sec. 2. No wires, insulators, or other electrical apparatus to shall be attached to any building without the consent of the owner or agent of such building having been first obtained.

Sec. 3. All work of construction, after permission has been granted, shall be thoroughly performed, and all kinds of material used shall be of the best quality obtainable, and subject to the approval of the said board of mayor and alder-

Quality and material manner of

men or its appointed officer or agent. The poles shall be of sound, smooth, and straight, cylindrical in shape, firmly set in the ground, and of such height and erected at such points construction, and in such manner, and the wires secured with such insulators or other fixtures or fastenings as shall preclude all danger from fire or other injury to persons or property; and said poles shall be painted before erection or immediately thereafter, and all poles from which are suspended wires unsafe to be touched shall be plainly marked "dangerous wire," with metallic plate or stencilled letters; and the location of such poles, wires, or other fixtures may at any time be altered or changed by the direction of said agent, and shall be removed, when so directed by the board of mayor and aldermen, after sixty (60) days' notice. All pavements removed in the erection or removal of poles shall be properly replaced, and all removal of earth for the same purpose shall be properly restored and the streets left in a condition which shall fully satisfy the commissioner of highways.

Sec. 4. Said poles shall not be used as a receptacle for the Restriction posting of bills or other advertising purposes, or any other of use of poles. Per nalty im-purpose except that for which permission was granted, and posed. violations of this section of the ordinance shall be punished by a fine of five dollars for each and every such offence.

Measures to be taken case of fire.

Sec. 5. Whenever in the event of a fire it may be deemed necessary by the officers or men of the fire department to cut, break, pull down, or remove any of said wires to extinguish or prevent the spread of such fire, such action may be taken without any liability therefor on their part or the part of the city, and such wires so damaged or destroyed shall be repaired and restored by the owners thereof, at their own expense, without expense or cost to the city.

Sec. 6. The authorized officer or agent of said board of mayor and aldermen shall, under the direction of the mayor, from time to time, carefully inspect said poles, wires, or other

fixtures, and all expense incurred by reason of such inspec-by authorized tions shall be paid by the owners thereof; and said officers agent of board or agents shall receive as compensation the sum of forty (40) aldermen. cents per hour for each hour of actual service rendered, and such sums received shall be retained by said officer as fees, unless said officer shall be receiving annual compensation from the city, in which case all such sums received shall be tion. paid into the city treasury, and any time when the owners of such wires shall neglect to repair and keep them in safe condition to the satisfaction of said board, the board may order forthwith the removal of said wires, poles, and fixtures, and voked. said permit previously obtained will thereby be revoked. And it is further provided, that nothing in this section shall be construed as exempting the owners of said wires from frequent and careful inspection of the same by their own agents, but the inspection by a municipal officer is in addition to such other inspections, and intended as another safeguard to protect the public from injury and damage.

Section 1. That a sum not to exceed twenty thousand dollars be and hereby is appropriated for a soldiers' monu-\$20,000 approment or memorial, to commemorate the patriotism of the priated. men of Concord who served their country on land or sea, in the several wars to establish, defend, and maintain the unity of the republic.

> Sec. 2. Such monument or memorial shall be located in White's Park, or in front of the city hall, or in some other suitable place.

Sec. 3. The mayor and two members of each branch of Committee to the city council, whose terms of office begin on the fourth consist of Tuesday of January, 1891, together with three citizen taxwhom. payers, to be severally hereafter appointed by the mayor and

three veteran soldiers to be selected by the Grand Army posts of the city, shall be a committee, of which the mayor shall be chairman, to carry into effect the purposes of this puties and ordinance; and such committee shall have full power to de-Powers of termine the site, procure and agree upon plans, accept proposals, and sign contracts for the construction and erection, and make all necessary arrangements for the appropriate dedication of such monument or memorial upon completion.

Sec. 4. This ordinance shall take effect upon its passage. Passed January 13, 1891.

JOINT RESOLUTIONS.

A RESOLUTION IN RELATION TO REGULAR MEETINGS OF THE CITY COUNCIL.

Resolved by the City Council of the City of Concord as follows:

That, until otherwise ordered, regular meetings of the city council shall be held on the second Tuesday of each month, instead of the last Saturday of each month as has been the custom heretofore, and shall take effect from and after its passage.

Passed January 26, 1889.

A RESOLUTION IN RELATION TO LEASING LAND.

Resolved by the City Council of the City of Concord as follows:

That the applications of Peabody & Barton, George W. Waters, and F. C. Clark, for leases of certain land on the city farm, so called, on which they propose to erect stone-sheds, are hereby referred to the mayor with full power to act, and said mayor is authorized to make and execute in the name of the city, to said parties or either of them, such leases as he may think desirable.

Passed March 12, 1889.

A RESOLUTION IN RELATION TO PAYING SALARIES AND RENTS.

Resolved by the City Council of the City of Concord as follows:

That the mayor be and hereby is authorized to draw his warrant for the payment of all regular salaries or rents, due monthly or quarterly as the case may be, on or after the first day of each month or quarter, during the present municipal term; and all bills so paid shall be laid before the Committee on Accounts and Claims at their next meeting.

Passed March 12, 1889.

A RESOLUTION FOR THE IMPROVEMENT OF THE GOOD-WILL HOSE HOUSE.

Resolved by the City Council of the City of Concord as follows:

That the proposed improvement of the Good-Will Hose House, for which an appropriation has been made, be referred to the Committee on Fire Department with the mayor added, with full power to make such improvements as in their judgment shall be deemed necessary, within the appropriation.

Passed March 12, 1889.

A Resolution providing for a Committee to supervise the Publication of the Old Town Records.

Resolved by the City Council of the City of Concord as follows:

That the proposed publication of the "old town records," for which an appropriation has been voted, shall be under the direction of a committee of three persons, consisting of the mayor, and one member of each branch of the city council to be appointed by the mayor. Said committee shall be empowered to select and appoint some suitable person to copy, classify, edit, index, and arrange said records under their supervision, and receive proposals for printing and binding in permanent form not exceeding three hundred copies,—one hundred of which shall be at the disposal of the city government, and the remaining two hundred copies shall be held for sale at such price as the committee may determine, the proceeds from which sales shall be paid into the city treasury. And said person, selected to compile and prepare said records, shall be allowed such compensation as said committee shall deem just and reasonable.

Passed April 9, 1889.

A RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A DEED RE-LEASING A CERTAIN MORTGAGE HELD BY THE CITY, WHICH HAS BEEN PAID BUT NOT DISCHARGED.

Resolved by the City Council of the City of Concord as follows:

Whereas, The city of Concord at one time held a mortgage on the meeting-house and lot of the South Freewill Baptist Society of Concord, N. II., situated on South State Street in said Concord, to secure a debt due said city, which debt has been fully paid to said city, but by some oversight said mortgage was not discharged at the time said debt was paid;—now therefore, the mayor is hereby anthorized to execute, in the name of the city, a proper quitclaim deed of all right, title, and interest of the city in and to said premises, to the trustees of said society.

Passed June 11, 1889.

A RESOLUTION AUTHORIZING THE MAYOR AND COMMITTEE ON LIGHTING STREETS TO MAKE A CONTRACT WITH THE CONCORD GAS LIGHT CO. FOR GAS AND ELECTRIC LIGHTS.

Resolved by the City Council of the City of Concord as follows:

That the Committee on Lighting Streets, with the mayor added, be instructed to contract with the Concord Gas Light Company to furnish such a number of gas-lights, as the committee shall name, to burn until 12 o'clock (average), the price to be \$18.50 per year for each light, to burn 20 nights, as now, in each month. Extra hours required for special purposes or particular lights to be charged at the same proportionate rate. The contract for gas to be made for one year. Also to contract with the Concord Gas Light Company for 47 electric are lights for the sum of one hundred dollars a year for each light to burn until midnight every night. The contract for electric lights to be made for a term of three years.

Passed June 11, 1889.

A Resolution appropriating Money for the purpose of purchasing Settees for public grounds.

Resolved by the City Council of the City of Concord as follows:

That a committee of three, to consist of the mayor and one member of each branch of the city council, be appointed and empowered to expend a sum of money not exceeding two hundred and fifty dollars for the purchase of a suitable number of iron settees,—the same to be placed in such public grounds as said committee may select.

Passed June 11, 1889.

A Resolution appropriating Money to paint and repair the Engine-House and Ward-Room in Penacook.

Resolved by the City Council of the City of Concord as follows:

That a sum not to exceed \$150 be and the same is hereby appropriated to paint and repair the Engine-House and Ward-Room in Penacook, and that the same be paid out of any money in the treasury not otherwise appropriated; and the mayor is authorized to draw his warrant for the same.

Passed July 9, 1889.

A RESOLUTION APPROPRIATING MONEY FOR INCIDENTAL EXPENSES.

Resolved by the City Council of the City of Concord as follows:

That a sum not exceeding three hundred dollars (\$300) be and the same is hereby appropriated for the purpose of defraying incidental expenses incurred on account of the contemplated visit of President Harrison to our city on Thursday next; and the mayor is hereby authorized to draw his warrant for said sum, out of any money in the treasury not otherwise appropriated, and is hereby given full power to expend said sum in defraying said expenses, in any manner he max think proper for the occasion.

Passed August 13, 1889.

A RESOLUTION APPROPRIATING MONEY TO PAY REBATE ON CITY PRE-CINCT TAXES PAID PRIOR TO JULY 30, 1889.

Resolved by the City Council of the City of Concord as follows:

Section 1. That the sum of three thousand six dollars and twelve cents (\$3006.12) be and the same is hereby appropriated for the purpose of paying a rebate to all persons who paid their city precinet tax for the year 1889 prior to July 30th, said rebate being made to correct an error in making the precinet tax.

Sec. 2. The mayor is hereby authorized to draw his warrant for the sum above named, out of any money in the treasury not otherwise appropriated, and place the same in the hands of George A. Foster, collector of taxes, who is hereby authorized and instructed to pay said

rebates, and file a copy of the names of the persons so paid, and the amounts, together with their receipts for the same, in the office of the city clerk.

Passed August 13, 1889.

A RESOLUTION AUTHORIZING THE MAYOR TO SELL REAL ESTATE BELONGING TO THE CITY.

Resolved by the City Council of the City of Concord as follows:

That the mayor be and hereby is authorized, with full powers, to sell the land belonging to the city of Concord, situated at the corner of Warren and Liberty streets, and execute the necessary papers for the conveyance of the same.

Passed August 13, 1889.

A Resolution authorizing the Exemption from Taxation of certain Property in said Concord.

Whereas. The New England Granite Works, of Hartford, Connecticut, have leased certain quarrying property, and propose to purchase the same and other quarrying property in said Concord, on which they propose to erect buildings and machinery for the quarrying and manufacture of products from granite,—

Resolved by the City Council of the City of Concord:

That all additional property and capital invested and created by said New England Granite Works in the manufacture of said granite products, or quarrying the material for the same, not now subject to taxation in said Concord, be, and the same shall be, for the period of ten years, exempt from taxation to the extent of three hundred thousand dollars: it is provided, however, that said New England Granite Works shall pay upon existing property, taxation at the present appraisal thereof for taxation purposes.

Passed August 13, 1889.

A Resolution authorizing the Exemption from Taxation of certain Property in said Concord.

WHEREAS. The Concord Manufacturing Company has purchased certain real estate and water-power in the village of Penacook, with the intention of improving the same, and erecting a woollen mill thereon for the purpose of manufacturing woollen goods.—

Resolved by the City Council of the City of Concord:

That all additional property invested by said Concord Manufactur-

ing Company on said mill site and water privilege, being the premises purchased by said company through Daniel Holden of Charles H. Amsden and situated on and near the Contoocook river in said Concord, and not now subject to taxation, owned by said company and used in connection with said business, and the machinery, stock, and capital required to carry on said business, shall be, and the same hereby are, exempted from taxation for the period of ten years from and after the passage hereof, or for so much of said period as the said company shall continue to use the same for manufacturing purposes as aforsaid;—provided, that the entire property exempted by virtue hereof shall not exceed \$500,000, in value; and provided, also, that nothing in this resolution shall be construed to exempt any property of said Concord Manufacturing Company that is now subject to taxation; and provided further, that this resolution shall not include any dwelling or tenement house.

Passed August 13, 1889.

A RESOLUTION APPROPRIATING MONEY FOR THE PURPOSE OF WIDEN-ING PLEASANT STREET.

Resolved by the City Council of the City of Concord as follows:

Section 1. That the sum of ten thousand dollars be and the same is hereby appropriated out of any money in the treasury not otherwise appropriated, for the purpose of defraying in part the expense of widening Pleasant street, and the mayor is hereby authorized to draw his warrant on the treasurer for the payment of the same.

Sec. 2. The mayor is hereby authorized to draw his warrant upon the treasurer for a further sum of ten thousand dollars, to be used for the purpose of making a tender of damages to land-owners for the completion and widening of said street. Said sum, so drawn and expended, is to be paid back into the treasury from the proceeds of the sale of bonds which are hereafter to be issued to cover the amount so used.

Passed August 20, 1889.

A RESOLUTION AUTHORIZING THE SALE OF REAL ESTATE.

Resolved by the City Council of the City of Concord as follows:

That the mayor, by and with the consent and approval of the Joint Committee on Lands and Buildings, is hereby authorized to sell, at private sale or by auction, as may be deemed best for the interests of the city, the whole or any portion of the lot known as the "city lot," situated on School street, or any other vacant lots belonging to the city for which the city has no special use; and the mayor is hereby authorized to execute, in the name of the city, proper deeds therefor.

Passed September 10, 1889.

A RESOLUTION IN RELATION TO THE FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the Committee on the Fire Department be authorized to purchase one thousand feet of "Fabric Fire Hose," to meet the present needs of the Fire Department.

Passed September 10, 1889.

A Resolution authorizing the Purchase of an "Intervale" Lot for Supplying Loam and Sod for Blossom Hill Cemetery.

Resolved by the City Council of the City of Concord as follows:

That the mayor, by and with the consent and approval of the Blossom Hill Cemetery Committee, be and is hereby empowered (if in his judgment deemed desirable) to purchase a tract of land on the "Intervale," so called, at a sum not exceeding five hundred dollars (8500), the same to be deeded to the city of Concord, and used for the special purpose of furnishing loam and sod for Blossom Hill cemetery, under the direction of the committee for said cemetery, and for no other purposes whatever, and that the same be paid for from funds in the treasury belonging to the Blossom Hill cemetery, and the mayor is hereby authorized to draw his warrant for the same.

Passed November 12, 1889.

A RESOLUTION APPROPRIATING MONEY TO PURCHASE HORSES FOR THE FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

Section 1. That a sum not exceeding five hundred dollars be and the same is hereby appropriated for the purpose of purchasing a pair of horses for the use of the Fire Department.

Sec. 2. That a committee, consisting of the mayor and one member of each board, be authorized to purchase said horses, and dispose of one or more horses now owned by the city and used in said Fire Department, as they may deem advisable.

Sec. 3. The mayor is hereby authorized to draw his warrant therefor, out of any money in the treasury not otherwise appropriated.

Passed November 15, 1889.

A RESOLUTION APPROPRIATING ADDITIONAL MONEY FOR ROADS AND BRIDGES.

Resolved by the City Council of the City of Concord as follows:

That the sum of twenty-five hundred dollars, in addition to the sum heretofore appropriated, be and the same is hereby appropriated, for defraying the road and bridge expenses for the current year, and the mayor is authorized to draw his warrant for the same, out of any money in the treasury not otherwise appropriated.

Passed November 15, 1889.

A RESOLUTION APPROPRIATING MONEY TO BUILD THE ABUTMENTS AND OTHER STONE-WORK AT THE BOROUGH BRIDGE NEAR PENACOOK.

Resolved by the City Council of the City of Concord as follows:

Section 1. That the sum of twenty-five hundred dollars be and the same is hereby appropriated for the construction of the abutments and other stone-work near the Borough bridge, so called, near Penacook.

Sec. 2. That the city treasurer be authorized to borrow on the credit of the city, at a rate of interest not to exceed 5 per cent., the sum of twenty-five hundred dollars, for a term not exceeding one year, to be used in providing for the above appropriation.

Passed November 15, 1889.

A RESOLUTION IN RELATION TO AN APPROPRIATION FOR A NEW POLICE STATION, AND FOR THE APPOINTMENT OF A BUILDING COMMITTEE.

Resolved by the City Council of the City of Concord as follows:

That WHEREAS, a committee having been appointed to consider the matter of a new city building, examine sites, procure plans and specifications; and

Whereas, said committee having attended to that duty, and made a report recommending a site for said building, together with plans for he same, which have been properly adopted by the City Council:—therefore,

Resolved, That the Committee on Finance be and hereby are instructed to include in the appropriations for the year 1800 a sum not exceeding twelve thousand dollars (812,000), to be used in defraying the expense of constructing a Police Station, said sum to be raised either by taxation or the issue of bonds therefor, as the city council shall hereafter determine.

Resolved. That the mayor and two members of each board, to be appointed by the mayor, be constituted a building committee, with full powers to construct a police station according to the plans this day adopted, and to spend any money that may be raised and appropriated for that purpose.

Passed December 30, 1889.

A RESOLUTION DISCONTINUING A PORTION OF WASHINGTON STREET IN WARD ONE.

Resolved by the City Council of the City of Concord as follows:

That the portion of Washington street in Ward One, situated between the following termini, to wit, the easterly bridge over the outlet at the Borough, so called, and a stone set in the ground on the "Old Borough Road" so called, and south-westerly from the first mentioned bound, which is not included in said street as laid out by the board of mayor and aldermen on November 12, 1889, be and the same is hereby discontinued.

Passed March 11, 1890.

A RESOLUTION DISCONTINUING A PORTION OF PENACOOK STREET IN EAST CONCORD.

Resolved by the City Council of the City of Concord as follows:

That that portion of Penacook Street in East Concord situated between the following termini, to wit, a stone set in the ground thirty-four and one half feet easterly of S. C. Sanders's house, and a stone set in the ground near the "Bowen Brook," so called, and north of the first mentioned stone, which is not included in said street as laid out by the board of mayor and aldermen on February 11, 1890, be and the same is hereby discontinued.

Passed March 11, 1890.

A RESOLUTION IN RELATION TO CITY PROPERTY.

Resolved by the City Council of the City of Concord as follows:

That the mayor be authorized to sell, at public auction or private sale, the barn located on White street.

Passed March 11, 1890.

A RESOLUTION AUTHORIZING THE MAYOR TO PURCHASE A HOSE-CARRIAGE.

Resolved by the City Council of the City of Concord as follows:

That the mayor is hereby authorized and instructed to purchase of the Good-Will Hose Co. the hose-carriage now owned and used by said company, and to pay for the same out of any money in the treasury not otherwise appropriated.

Passed April 8, 1890.

A RESOLUTION APPOINTING A COMMITTEE TO EXPEND A CERTAIN APPROPRIATION.

Resolved by the City Council of the City of Concord as follows:

That Alderman Allen and Councilman O'Neill be and are hereby appointed a committee to expend the appropriation made March 11, 1890, to furnish heating apparatus for Pioneer Engine House.

Passed April 8, 1890.

A RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE BOND OF \$500.

Resolved by the City Council of the City of Concord as follows:

That the mayor is hereby authorized to execute, in the name of and in behalf of the city, a bond in the sum of five hundred dollars, conditioned to pay and satisfy all damages as may be occasioned to the adverse party in the action, City of Concord against Betsey J. Burleigh, now pending in the Supreme Court for Merrimack county, in case the proceeding in which the injunction is issued shall be determined against said city.

Passed July 8, 1890.

A RESOLUTION APPROPRIATING FOUR HUNDRED AND FIFTY DOLLARS FOR REPAIRING CITY HALL BUILDING IN CONNECTION WITH MERRI-MACK COUNTY.

Resolved by the City Council of the City of Concord as follows:

That the sum of four hundred and fifty dollars be and the same is hereby appropriated for defraying one half the expense of repairs on the City Hall building.

Passed July 8, 1890.

A Resolution appropriating Money for procuring Plans for a Soldiers' Monument.

Resolved by the City Council of the City of Concord as follows:

That the committee to whom was referred the petition of É. E. Sturtevant Post for a soldiers' monument be authorized to spend a sum, under the direction of the mayor, not exceeding two hundred and fifty dollars, which is hereby appropriated for the purpose of procuring plans and other information in regard to some suitable monument or other design, as may be decided upon.

Passed July 8, 1890.

A RESOLUTION APPROPRIATING FIVE THOUSAND DOLLARS FOR THE PURCHASE OF FIRE APPARATUS.

Resolved by the City Council of the City of Concord as follows:

That the sum of five thousand dollars be and the same is hereby appropriated for the purchase of fire apparatus as follows,—one first-class steam fire engine, one thousand feet of new hose, and such extension ladders as may be deemed sufficient for the fire department; and that the mayor, chief engineer, and committee on fire department shall constitute a committee with full powers to purchase said apparatus, and that the same be procured at the earliest practicable moment; and the mayor is hereby authorized to draw his warrant on the treasurer for said sum, the same to be paid out of any money in the treasury not otherwise appropriated.

Passed July 8, 1890.

A Resolution appropriating Five Thousand Dollars for Roads and Bridges.

Resolved by the City Council of the City of Concord as follows:

That the sum of five thousand dollars be and the same is hereby appropriated for roads and bridges the present year; and the mayor is hereby authorized to draw his warrant for the payment of the same out of any money in the treasury not otherwise appropriated.

Passed September 1, 1890.

A RESOLUTION AUTHORIZING THE MAYOR TO DRAW AND EXPEND ALL HIGHWAY MONEY DURING THE ILLNESS OF THE COMMISSIONER.

Resolved by the City Council of the City of Concord as follows:

That whereas, by reason of the illness of the commissioner of highways, Daniel K. Abbott, it becomes necessary that some person be authorized to draw and expend the money appropriated for roads and bridges and sidewalks,—therefore,

Resolved, That his honor the mayor be hereby authorized to draw and expend all money on highway account until said commissioner shall be able to resume his duties.

Passed September 1, 1890.

A Resolution appropriating additional Money to defray the Expense of widening Pleasant Street Extension.

Resolved by the City Council of the City of Concord as follows:

That the mayor be and hereby is authorized to draw his warrant on the treasurer for a sum of money not exceeding thirty-eight hundred dollars, to be used for the purpose of paying additional damages to land-owners and lessees for land taken in widening Pleasant Street extension. Said sum, so drawn and expended, shall be paid back into the treasury from the proceeds of the sale of bonds which are hereafter to be issued to cover the amount hereby appropriated, as well as for the amount appropriated in like manner by joint resolution passed Angust 13, 1889.

Passed September 18, 1890.

A RESOLUTION AUTHORIZING THE MAYOR AND CITY TREASURER TO MAKE A TEMPORARY LOAN.

Resolved by the City Council of the City of Concord as follows:

That, whereas, an ordinance entitled "An Ordinance appropriating Thirteen Thousand Eight Hundred Dollars (813,800), for widening Pleasant Street Extension and providing for a Loan for the same," has been this day passed by the city council; and whereas, in said ordinance it is provided that certain bonds, provision for the issue of which is made in said ordinance, shall be sold;—now, therefore, in case the city treasurer is unable to sell said bonds at par or at a premium when issued, the mayor and city treasurer are hereby authorized to borrow temporarily, on the credit of the city, the said sum of thirteen thousand eight hundred dollars (\$13,800), and are authorized to give the city's note therefor payable not more than six months from date, and the sum received from the sale of said bonds shall be used in payment of said note.

Passed December 9, 1890.

A RESOLUTION ASSENTING TO A TRANSFER OF A LEASE OF A STONE QUARRY IN THE VILLAGE OF WEST CONCORD.

Resolved by the City Council of the City of Concord as follows:

That said city hereby assents that the lease of the stone quarry in the village of West Concord from said city to Frank C. Blodgett may be assigned to Cornelius Giles for the balance of the unexpired term, subject to the same terms, conditions, and rent as in said lease provided. Passed December 30, 1890.

A RESOLUTION AUTHORIZING THE SALE OF THE "BOYS' PLAY-GROUND," SO CALLED, THE PROCEEDS TO BE APPLIED TO THE PUR-CHASE OF ADDITIONAL LAND FOR WHITE PARK.

Resolved by the City Council of the City of Concord as follows:

That the mayor be and is hereby authorized to sell and dispose of, and convey by deed, the whole, or any portion thereof, of the "boys' play ground," so called, situated on the intervale near the "Free Bridge," so called, the proceeds of such sale or any portion thereof to be applied to the purchase of an additional strip of land for the extension of White Park toward Beacon street.

Passed December 30, 1890.

A RESOLUTION APPROPRIATING MONEY FOR THE FIRE DEPARTMENT AND POLICE STATION.

Resolved by the City Council of the City of Concord as follows:

That a sum of money not exceeding four thousand, five hundred dollars be and the same is hereby appropriated for the following purposes, to wit, two thousand five hundred dollars to defray the necessary expenses of the fire department for the current year, and two thousand dollars to defray the necessary expense incurred in completing the police station, and that the same be paid out of any money in the treasury not otherwise appropriated.

Passed December 30, 1890.

A RESOLUTION AUTHORIZING THE MAYOR TO PURCHASE ADDITIONAL DESKS AND CHAIRS FOR THE USE OF THE INCOMING CITY COUNCIL.

Resolved by the City Council of the City of Concord as follows:

That the mayor be and is hereby authorized to purchase six additional desks and the same number of chairs for the use of the additional members-elect of the incoming City Council, the same to be paid for out of any money in the treasury not otherwise appropriated.

Passed January 13, 1891.

A Resolution discontinuing a portion of Durgin Street.

Resolved by the City Council of the City of Concord as follows:

That so much of the highway laid out by the Board of Mayor and Aldermen November 24, 1888, and recorded in Highway Records, vol. 2, page 333, as is included within the following description, viz.,—commencing 75 feet from School street at the sonth-westerly corner of W. B. Durgin's land: thence running westerly six inches at right angles with said Durgin's land; thence southerly in a line parallel with the east side of said highway about 22 feet, or until reaching the intersecting lines of the easterly line of said highway; thence deflecting 10 degrees and running in an easterly direction to a point 19½ feet southerly from the bounds first mentioned; thence running to the point begun at,—be and the same is hereby discontinued, meaning hereby to discontinue all that part of said highway on which the buildings of the J. R. Hill Harness Co. now stand.

Passed January 13, 1891.

MAYOR'S ADDRESS.

Gentlemen of the City Council:

In accordance with the city charter we have accepted the oath of office, and find ourselves upon the beginning of a new year—through the trust confided in us by our fellow-citizens—here assembled to formally inaugurate the city government for the coming two years. To these citizens we have pledged ourselves for an impartial and economical management of the city affairs.

Permit me, before proceeding further, to express through you, to my fellow-citizens, my appreciation of the honor they have bestowed upon me in designating me to fill the highest office it is their privilege to bestow. In accepting this honor, it is my purpose to honor them by a faithful and conscientious discharge of all the duties that devolve upon the office.

It is evident that the people of this city desire business men to govern their affairs. Our administration will be successful just so far as we respond to this demand. The same rules that apply in our business should be followed in governing our city. There should be no places for partisanship, or disposition of the spoils to the professional politician. The qualifications for office under this government should be integrity and capacity,—meaning that there are no favorites or sinecures under a business man's government; that there are no side entrances to these council chambers, and that judgment rules instead of sentiment.

Whether such a government shall result from our coming together depends, in a great measure, upon you. There are so many able men among you, and you represent so many different business pursuits, that great ability and valuable personal experience can be brought to bear upon every matter that shall come under consideration.

As the city fathers, we should guard the city's interest as we would those of our own families. These two years will be full of responsibilities, new to many of us, and whatever is referred to our consideration, the decisions made should be the outgrowth of careful deliberation.

Remember, that we are to consider matters for the future as well as for the present. Criticisms must be expected until our methods shall have been proved by trial. From the moral and upright we shall receive nothing but approval, and from all just men their whole support. And the whole city will feel the effects of such an administration by increased prosperity and unison of feeling.

This is the era of healthy growth and prosperity all over the land, and the rising generation demands of us to keep abreast of the times in all our doings. What has sufficed in the past may be entirely wrong to follow in the future. We must so legislate that our various industries will surely remain here, and must endeavor to attract toward our city much of the idle capital that always seeks investment in a wide-awake municipality.

Net profits,	14.24

It is my duty to call your attention to the condition of the several departments of the municipal affairs. I shall add such suggestions and recommendations as seem in my judgment to be wise.

In our public schools we may justly take pride, and I mention them thus early, because it is to them that we must look for helpful work in the training of youth and in the making of character.

The Board of Education may congratulate itself upon the material results of the last two years, as evinced by the substantial, commodious, and even elegant school-houses which have been erected. The cost of the new buildings has been,—

Franklin school, including the removal and refitting of the old building, \$16,432.81 Kimball school, 57,673.61 High school, 80,000.00

We find efficient teachers in every department; and in our superintendent, Mr. L. J. Rundlett, we have one who has by earnest labor brought the course of study pursued here to a high standard, when compared with that of other cities in New England. I am not aware that any proposition for further building is likely to come before you.

WATER DEPARTMENT.

When our water-supply was first received from Penacook lake, it was supposed it would abundantly satisfy the demands to be made upon it. This is an instance in which foresight was somewhat obscured by the extent of future progress. Time has revealed to us more growth in our city's population than was then anticipated. The result is a deficiency in the necessary force of our water-supply. Added to this increase of population in the city proper has been the annexing of Penacook, West Concord, and Millville.

That some definite and immediate action should be taken is very evident. Its capacity is taxed to its utmost every day, and should a conflagration occur in our midst we should be embarrassed in our efforts to control it. Especially is the deficiency of our water force noticeable in the part of our city known as "on the hill." There are located many of our handsome residences, and there, too, can be found valuable land for further buildings, if sufficient water privileges can be provided there.

In the business portions the water commissioners have had continually to refuse any more requests for water as a motive power, and thus, in many instances, it interferes with successful business enterprise. With all these forcible facts staring us in the face, it will be disastrous to the interests of our city if we close our eyes to this condition of our water-works. From partial investigation by the water commissioners these facts have been ascertained, and it follows that we must seek increased supply from some body of water of higher elevation. Two remedies have been considered,—the one a pumping-station, the other an enlargement of the present gravity system.

The first action upon this matter will of course necessitate the issue of new bonds. To many of our citizens the first thought of "new bonds" is increased taxation, and that occasions dissatisfaction. I shall endeavor right here to correct this common error. Water bonds differ from many other city bonds in the fact that they are self-sustaining. Capitalists stand ready to assume our whole water debt, and pay a handsome premium. Added to this are the annual prices paid for the use of the water, and from the various kinds of business wait-

ing for opportunity to use water is derived an income which puts a different phase upon these bonds than those, for instance, incurred by sewerage, which receives no annual income from usage.

This is a matter of importance which we may have to consider, and, should lit assume definite form in real action, I hope we shall be wise in our decisions, and that they will result in accomplishing better water facilities.

The rapid growth and development of our city proper for the past few years will increase the work of the sewer committee. Our sewerage is good, but it should be a matter of constant care to guard against the advent of those diseases which in too many instances have their origin in a lack of good and sufficient drainage.

Some new sewers will be called for this year. I would recommend an extension of one as far as the south-west corner of White Park. Another should be put in on the new Prospect street, to be entered from the east side of North State street, and the one already begun at the South End should be completed. It should be the policy of this committee to meet the demands as rapidly as possible, and to begin the work as early as the spring will admit.

The board of health, to which all sanitary matters are referred, is composed of gentlemen well qualified for the service. That the result of their labors in the past has produced a more healthful atmosphere, all will concede. This is a department which considers matters of vital importance. Every citizen should be awake to danger, and confer with this board upon all matters injurious to health which come under their observation. Then even more efficient results can be arrived at by the officials.

The Margaret Pillsbury Hospital, the land and building for which have been provided by the munificent gift of our former citizen and ex-mayor, Hon. George A. Pillsbury, is a grand monument of philanthropy. The gratitude of our citizens will ever flow towards the giver. Here indeed will be a home for the sick and suffering, where professional skill and tender care will ever minister to their necessities. Fortunate is the city which has friends like the donor of The Margaret Pillsbury Hospital. Our appropriation toward its support may well be a generous one.

The free public library, in the Fowler Building, is a literary treasure open to every citizen. Now that its use is free, the demands upon its shelves are steadily increasing. A liberal appropriation for its maintenance and enlargement is called for by considerations of both public honor and public need.

White Park, the gift of Mrs. Armenia S. White, has, during the past summer, made a most commendable development, and has been a very delightful surprise to many of our citizens. The value of the gift is only beginning to be appreciated

as it should be. Mr. Charles Elliot, of Boston, the landscape architect, whose taste has aided in its development, says nature has done more to make this spot suitable for a beautiful park than for any like convenient locality which he has known in our state.

The commissioners have expended the limited appropriations granted with marvellous results. I recommend for its development an appropriation larger than last year, so that old and young may the earlier enjoy the beautiful park in its fuller extent. A substantial fence should be built along its southern front, and a desirable addition to its northern area can be had for \$700. For these purposes I recommend an appropriation.

There is within our reach at the South End a very desirable woodland park. The trees on it are the growth of a century, and, to save them from being cut down, the tract has been purchased by some public-spirited gentlemen, and will, I understand, be offered to the city in memory of our late distinguished townsman, Hon. Edward H. Rollins. I shall recommend that it be accepted, and that suitable measures be taken for its preservation and future improvement.

HIGHWAYS.

The work upon our streets should be begun as early as the weather will admit. Macadamizing should be continued wherever the city travel demands it, keeping of course within bounds of the appropriations. The stone we have been using of late is not of sufficient hardness throughout. The soft stone wears down, and in time gives an uneven road. The stone chips from the stone-yards here will cost some more, but will be worth much more for Macadamizing.

Some more new sidewalks will be called for, and some of the old ones repaired. Better street crossings in some localities should be laid. I doubt whether there is a community anywhere no more populous than our own which has so many miles of streets and sidewalks to maintain.

This work in the past has been well carried out in most instances, but in order to receive the full value of the money thus invested there should be constant repairs. The compact part of the city should have attention first, the outside wards receiving their proportion of the appropriations. The people in these wards owning work teams should be recognized in distributing the work of repairs in their locality, instead of sending teams from the city proper.

The office of commissioner of highways, as now constituted, gives all the power of action to one man, which has been fully demonstrated during the past few years. The mayor and aldermen are devoid of any authority in the dictation of the work of this department, so important to tax-payers. This arrangement, so independent of the voice of the

mayor and aldermen, does not give perfect satisfaction. To modify it somewhat might give better results.

Our street electric lights have increased from seventeen to fifty-one. Luxury after a time becomes a necessity: so it has proved itself to be with electric lights. When we come to know the fact that several gas lights are dispensed with for each new electric light, they are not as expensive as was at first supposed. Adding a few more each year will give satisfaction equal to the expense incurred.

The question of rebuilding the Free Bridge must come up for consideration, and be acted upon very soon. In my judgment, a bridge of substantial construction should be built. A modern iron bridge would never be a matter of regret to our city.

FIRE DEPARTMENT.

This department is in a condition very commendable. Its members are all worthy citizens, of great courage and ready action. To provide them with every available means to carry out the work required of them should unhesitatingly be attempted. With the recently purchased steamer, added to the apparatus already in use in the city proper, the department is well equipped as far as the ablebodied men and apparatus go, but sufficient water force is wanting. Unless this want is speedily

supplied, the other efficiencies of the department may avail us but little.

The number of alarms in 1890 was thirty-two; of these, sixteen were what are called still alarms.

The loss of property was \$35,657.67.

The electric fire-alarm has proved itself of great value, and has responded with accuracy in almost every instance.

By the death of the late Chief Engineer, Mr. C. C. Blanchard, the city lost an efficient officer and the firemen a personal friend.

Our new chief engineer is discharging his duties successfully.

The steward of the Fire Station should have more suitable apartments, removed from the immediate vicinity of the horses.

I would recommend the purchase of a pair of new horses immediately, and also that a pair of horses be kept at the station throughout the day, in readiness for action.

Some new "fabric hose" will be wanted at Penacook and West Concord. The usual appropriations will probably maintain the department.

Several of the city buildings need repairing, especially the Good-Will hose-house and ward six ward-room. A special appropriation of several hundred dollars should be made for such repairs.

The Police Department, as now organized, has a marshal, assistant marshal, six patrolmen, and a number of efficient special officers. Our city has been orderly, and crimes of the most noticeable kind have been few. In several instances criminals have been hunted down with praiseworthy efficiency and skill.

In this department, harmony and good discipline are very necessary to good work, and care should be taken in the selection of our police. Physically strong, in character beyond reproach: these are recommendations that should be considered rather than political preferences.

The uniformed squad of police deserve special mention for the admirable manner in which they have done escort duty in this city and several others. It would be a matter of much regret if this imposing line of men should cease to be an organization.

The new building for a police station and ward-room seems to be adequate to its purpose.

The city ambulance, in my opinion, should be under the immediate control of the police.

Blossom Hill Cemetery has been in the hands of a competent committee, and satisfactory progress has been made in the adornment of the city of the dead. To continue this is, of course, our duty. I would suggest that more be done for the proper preservation of the Old North Cemetery.

I wish, also, that our administration might witness the building of an appropriate gateway to

Blossom Hill—perhaps the gift of some fortunate friend, who might thus do honor to himself and the dead.

I have submitted to your consideration the condition of the city finances, and other points of vital importance to the future of our city. Only as far as I can see now have I recommended improvements. I reserve the privilege of communicating to you, from time to time, any additional changes which, in my judgment, the needs of the city demand.

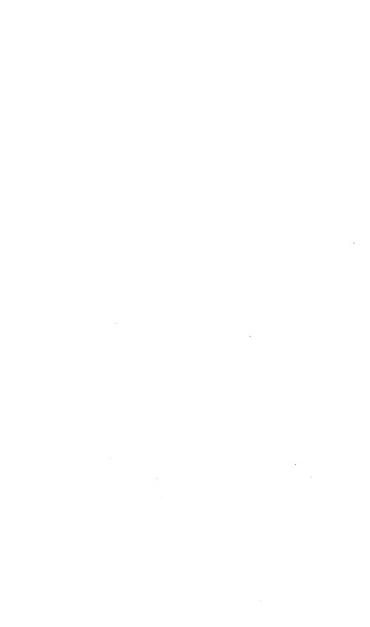

I refer you to the reports of the several committees for a more extended account of the work of the past two years.

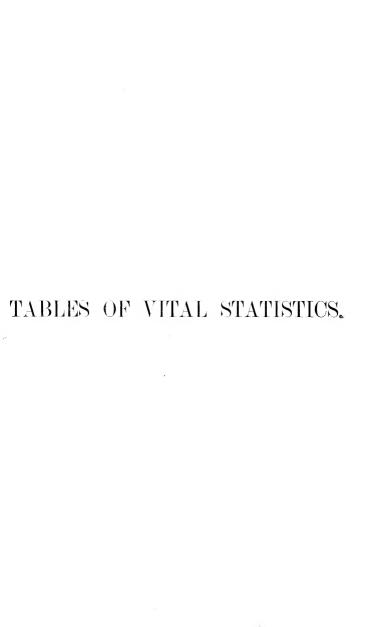

My obligations should be expressed to the retiring mayor for much friendly counsel and aid.

After this brief expression of opinion, I think we are ready to enter upon our duties, and I feel sure they will be performed with courtesy and harmony. Coöperation must be our stronghold. By what we do, rather than by what we say, will our fellow-citizens judge us. I trust that when we retire from office it may be said of us that we have deserved the good opinion of all reasonable men.

HENRY W. CLAPP.

APPENDIX.

VITAL STATISTICS.

TO THE CITY COUNCIL: In compliance with an act of the legislature passed June Session, 1887, requiring "elerks of towns and cities to furnish a transcript of the record of births, marriages, and deaths to the municipal officers for publication in the annual report," I hereby submit the following:

Births Registered in the City of Concord, N. H., for the Year ending December 31, 1890.

JANUARY.
